VOLUME XVI — THE CLEARFIELD PROGRESS, CLEARFIELD, PA., TUESDAY EVENING, NOVEMBER 28, 1922.

PRESIDENT HARDING AGAIN TAKES UP PROHIBITION ENFORCEMENT QUESTION WITH ADVISERS AT CABINET SESSION

Country-Wide Violations of Volstead Act Causing Grave Concern at the Capital.

MIDDIES GOT FULL

Washington, Nov. 28.—A conference for the curbing of the widespread violations of the liquor laws by the midshipmen in Philadelphia, following the Army and Navy game on Saturday was being held by President Harding and his cabinet today, calling in Prohibition Director Davis of Pennsylvania for his version of the affair.

Davis held that he was not responsible for the wetness of the Navy in a certain hotel in Philadelphia, claiming that the liquor was reported to him as being "imported into the city."

Washington, D. C. Nov. 28.—Prohibition was expected to be discussed by President Harding and his cabinet at the meeting for today. Secretary Denby, who has threatened to start an investigation of all the circumstances surrounding the heavy drinking of the Annapolis midshipmen following the Army-Navy football game in Philadelphia Saturday, will go over the situation to devise some plan to cope with the situation, stating that present conditions cannot continue.

Mellon believes that it will take a small army to enforce the statutes as they now stand, in fact, he says that strict enforcement is impossible.

No plans have been yet put before the Cabinet to check up the wave of current violations.

Philadelphia, Nov. 28.—More liquor is flowing into the United States now than at any time since the prohibition laws went into effect, said a high government official connected with the enforcement department today.

"Rum runners have doubled their activities." the official declared "and the government agents are powerless to stop them owing to an insufficient force of men."

SIX MEMBERS OF GREEK CABINET TO LOSE THEIR LIVES

Athens, Nov. 28.—Six members of the Former Greek Cabinet, held responsible for the return of the Turks, were ordered to be executed and two others were ordered to be imprisoned for life.

Among those sentenced to death was former Premier Gounaris, arch enemy of Venezelos and instrumental in restoring Constantine to the throne. He succeeded Venezelos as premier under Constantine.

Athens, Nov. 28—Six members of the Cabinet, which fell when King Constantine abdicated, were executed here today it was officially announced. They were shot by a firing squad

These ministers were held responsible for the defeat of the Greeks in the war with Turkey and were charged with the Greek collapse

DOUBLE KILLING AT HUNTINGDON, N. Y., BEING LOOKED INTO

Huntingdon, N. Y, Nov. 23.—The slaying of John Leitch, 29, who it is alleged, shot and fatally wounded his fiance, Miss Rose Landrisser, 18, is being probed by the police and the coroner today.

Edward Scudder, at whose home the double tragedy occurred says that he killed Leitch after he had shot Miss Landrisser during a lover's quarrel and after he had attempted to shoot at Mrs. Scudder.

"Leitch and Miss Landrisser were in the front room. We heard a shot and rushed in and found Miss Landrisser lying in a pool of blood", Scudder said "I drove him from the house with a shot gun and he rushed for his car and began to circle the house. He snapped his gun at Mrs. Scudder but it failed to explode and then I shot him." Scudder continued.

DE VALERA NAMES HIS NEW CABINET

Dublin, Nov 28—Eamon de Valera, from his hiding place, defied the Free Staters by naming a new cabinet for the Irish Republic. Most of the "rebel" cabinets that have been heretofore named have been placed in jail.

Mrs. Geo. S. Long and son Jr. George Lynn, of Philipsburg, spent Sunday with her parents, Mr. and Mrs. Sterling Simcox on Mill Road.

PITTSBURGH MAN MEETS HORRIBLE DEATH IN FURNACE

Pittsburgh, Pa., Nov. 28.—After three weeks of investigation, the coroner has decided that Peter Serzen, aged 57 of Duquesne met his death by being dumped into one of the open hearth furnaces of the United States Steel Co.

Serzen had charge of the cars loaded with ore that were to be dumped into the furnaces and it is supposed that he was caught in one of them, meeting instant death and annihilation by being dumped into the furnace.

'PIG WOMAN' REPEATS HER STORY OF HALL-MILLS MURDER SCENE TO GRAND JURY

Somnerville, N J., Nov. 28—With Mrs Edward Hall awaiting her opportunity to demand a hearing before the grand jury, Mrs Jane Gibson, the "pig woman," gave her testimony here this morning.

As she passed through the corridors of the court house on her way to the grand jury room she passed within a few feet of Mrs. Hall, whom she says she saw at the place of the double tragedy on the night of September 14th last. The widow did not twitch a muscle as the "pig woman" passed her. As the witness passed Mrs. Hall, Miss Sally Peters glanced at her and then conversed in a whisper with Attorney Pfeiffer.

Mrs. Gibson was flanked by State policemen as she traversed the corridors

Her testimony was secret but if she has not changed her story she says that she was riding her mule down through Lovers' Lane toward the abandoned Phillips farm on the night that the Rev Edwin Hall and his "wonder-heart" choir singer, Mrs. Elmer Mills, were slain. Later she returned and stated that she saw a woman weeping over the bodies of the slain pair and that she recognized the woman as Mrs. Hall, by the aid of a passing automobile headlight

Govenor-Elect Pinchot's Business Men's Committee Will Recommend Some Very Radical Changes In Highway Department

Suggests Budget System That Will Eliminate Many Obselete Practices In the Handling and Disbursing of Monies; $250,000,000 Needed to Finsh Improving of Rest of Road System.

WANT DEFINITE SYSTEM FOR FUTURE

Philadelphia, Pa., Nov. 28. (U. P.) In a survey of the fiscal policies of the State Highway Department, by the citizens committee on the finances of the State of Pennsylvania, many changes to revolutionize the highway policies were recommended.

The committee's report, submitted to Governor-elect Gifford Pinchot, will be used towards making up the State budget under the new administration, which takes office in January.

A summary of the recommendations follows:

The highways included in the Sproul Act were not placed under the jurisdiction of the State until June 1, 1912. During the administration from Jan. 1st, 1911 to January, 1915, the progress made was not startling.

During the first half of the administration beginning January, 1915, considerable progress was made The administration of the department under the late Commissioner Sadler has been the most progressive thus far

Subsequent events justify the opinion that during the Sadler administration the first consistent effort was made to place the department on a high plane.

At present the department is operating on more or less of a budget system of its own, but a review of the history of the deaprtment points to the necessity of controlling the appropriations and expenditures thru a well defined budget system common to all other departments.

The monthly financial statement of the State Highway Department, dated August 31, 1922, indicates a deficit of $11,990,710 25 of General Fund Appropriations for the use of the State Highway Department. This total is made up as follows:

State Highway Appropriations 1917, 1919, 1921	$ 3,546,058.38
State Aid Highway 1917, 1919, 1921	6,663,256.42
Maintenance and Repairs (borough) 1921	285,637.82
Maintenance and Repairs (State Aid) 1919, 1921	166,477.57
Township Reward 1919	414,853.20
Township Reward 1921	914,426.78
	$11,990,710.24

Of the total deficit $7,992,536.47 is made up from appropriations made by the legislature, to assist these sub-divisions in their road programs. This is a hardship on the local communities. It is, also, an illuminating example of the necessity for conducting the business of the State on a budget system

Based on the average cost per mile of the last four years it will cost about $230,000,000 to pave the unimproved roads on the highway system with an improved type of pavement and an additional $120,000,000 to replace the waterbound macadam roads with an improved type

The Department should determine upon a road improvement policy that will take into consideration the completion of the paving of the highway system within a reasonable time and at a justifiable expense.

This necessitates making a comprehensive Highway Transport Survey, so that plans can be formulated based on economic and business consid-

(Continued On Page Two.)

When the Seals Come, Buy Them

A LITTLE before Christmas, you will be offered some Christmas Seals. Keep them and use them on envelopes and packages. Send a check or money order to cover the small sum they cost.

When you do this, you help in the fight against tuberculosis. You help save human lives. Your help goes where help is most needed—to the house that is clouded with the threat of death. When the seals come, buy them.

Stamp Out Tuberculosis with Christmas Seals

This official Christmas Seal is sold throughout Pennsylvania by local organizations affiliated with the Pennsylvania Tuberculosis Society.

CHRISTMAS SEALS SAVE LIVES

Matty Says

TO THE PEOPLE OF HIS HOME STATE, PENNSYLVANIA

30 PARK AVENUE GARANAC LAKE, NEW YORK

November 20th, 1922

Tuberculosis is no respector of persons! Your dearest relative or friend may contract the disease today!

"Do your bit" by buying some Christmas Seals today, thereby helping to destroy this terrible "WHITE PLAGUE"!

FORMER M. E. BISHOP IS DEAD AT HIS HOME IN MEADVILLE, PA

Meadeville, Pa., Nov. 28.—John Thorburn, until his retirement head of all missionary work for the Methodist Episcopal church in India, died here this morning at 6:30, aged 86 years. Death followed a lingering illness.

The former bishop was widely known for his wonderful work among the missions of India and was a writer of considerable repute, having at one time been the editor of "The Indian Witness," widely read publication printed in Calcutta.

Among the important writings of Bishop Thorburn were: "My Missionary Apprentice," "India and Malaysia," "The Light in the East," and "The Christian Nations."

He was born on a farm near St Clairsville, Ohio, on March 7th, 1837 and was elevated to the bishopric in 1888.

PRETTY AMERICAN GIRL'S DEATH TO BE CAREFULLY PROBED

Paris, Nov. 28.—The burial of Miss Rose Shaunessy, the pretty American girl has been delayed at the request of the American consul here pending the investigations into her mysterious death in the apartments of a wealthy bachelor here.

Miss Shaunessy was found in the apartment dying from many bullet wounds thought at first to have been self-inflicted.

While the authorities will not give out the name of the man in whose apartments the tragedy occurred it is understood that he is the nephew of one of the publishers of one of the leading evening newspapers of Paris

BOWLING LEAGUE TO BE ORGANIZED

Every one who is interested in Bowling is invited to attend a meeting at the Y. M. C A. on Tuesday, Nov. 28, 1922 at 7:30 o'clock.

This meeting will be held for the purpose of organizing a league and forming rules to govern the activities of the league for the coming months.

Miss Mary Liveright leaves tomorrow for New York City, where she will spend the winter

THANKSGIVING DAY TO SEE CLASH BETWEEN CURWENSVILLE AND CLEARFIELD HIGH

By DICK LEIPOLD

Thanksgiving day Clearfield Hi will close the local foot ball season when the crack Curwensville squad will invvade the County Seat and do their best to dethrone the Red and Black from the present high place they are occupying in this section of the State. The local squad, barring a few bad bruises received on Saturday's frozen turf, are in good condition and should be able to offer their most formidable line-up against the up-river eleven. A light workout today, followed by a signal drill tomorrow afternoon will conclude Coach Reed's stalwarts, preparation for the invading gridders.

A Little Dope on the Curwensville Team

Thursday's meeting between Clearfield Hi and Curwensville Hi will be the first since 1917, when the locals crushed the Blue and Gold gridmen 67 to 0. Last fall the Curwensville Athletic Association went after things right and laid the foundation for this season's powerful machine. Experienced men from the 1921 squad formed the neucleus around which Coach Black built his present winning combination. "Becken" Norris, versatile field general, started his foot ball career in 1917, when he called the signals for the Curwensville High team that battled Jim Cochrane's fast Red and Black outfit. Norris is the most experienced quarterback in the county playing high school ball. In the DuBois game on DuBois, he greatly out-manuvered the city team's quarter. But Norris should be a resourceful, heady player for, even seven years ago, when his first donned, moleskins he put up a versatile game. "Olie" Olson, veteran full back, is reported by both Clearfield and Curwensville fans to be a man no line has yet been able to stop while Ned Edwards the giant colored athlete plaves a wonderful defensive game at end. Edwards received his early foot ball knowledge at a southern school. This trio of stars are the men that should be the shining lights in the Villagers' attack, iff they can repeat the class showing against the Red and Black that they have made against other teams this season.

A Good Record For 1922

Coach Black, who is a product of Penn State College, has a regular

(Continued on Page Five)

ENLARGEMENT OF HILLCREST FOUND TO BE NECESSARY

The Clearfield Cemetery Company has purchased a plot of ten lots in Fourth Ward from James Mahaffey and will add this property to Hillcrest cemetery. The land immediately adjoins the cemetery, being separated by the driveway off Woodland road beyond the entrance to Hillcrest.

There is sufficient ground in the new addition to make eighty cemetery lots. The consideration was $5250.

FRENCH CABINET APPROVES PLAN TO STRIP GERMANY

Paris, Nov 28—President Poincare's plans for the seizure of property and German territory were approved by the French cabinet today, and the reparation crisis which has been pending for some time is now considered unavoidable.

The plans were outlined in a note sent to the Allies.

France's move will probably take place next January when the next payment is due.

Seizure of the Ruhr district and the establishment of an independent regime on the left bank of the Rhine will probably be the gist of the plan.

Miss Jean Eleanor Houser is visiting in Juniata.

NEW POSTMASTER FOR CLEARFIELD IS STILL LAUNCHING

Notwithstanding the fact that Postmaster W. E. Tobias' resignation has been in the hands of the Postmaster General for the past three months not much has been done thus far toward getting us a new postmaster or relieving Mr. Tobias of the burdens of the office, which became so distasteful to him that he gladly tendered his resignation.

The matter of a successor to Mr. Tobias is in the hands of the Civil Service Commission. That august, bewhiskered, and highly useless aggregation of old fossil ideed idealists ordered an examination for postmaster of Clearfield in September last, but so far nothing further has been heard from them.

There are three applicants in the race, at least that many filled out the customary questionnaire and filed same with the Civil Service Commission They are:—Dr. C. E. Chase, C. E Roseberry and S. A. Row, of the present postoffice force.

PUNXSUTAWNEY HAS FIRST DEATH FROM COASTING THIS FALL

Punxsutawney, Pa., Nov. 28.—John C. Philips, aged 7, was killed and his father and two brothers were seriously injured today in the first coasting accident of the season.

FARMERS' WEEK AT STATE COLLEGE TO OPEN DEC. 18TH; CLEARFIELDERS GOING

Quite a few Clearfield County farmers are counting on spending some time at the Pennsylvania State College between December 18th and 21st, when the winter series of farmers' meetings is to be held. The last previous winter Farmers' Week was held in February, 1919, when in response to a popular suggestion, it was decided to hold sessions in June, at which time a larger number of people can be accommodated. This year, with the students away from the college enjoying their holiday vacation, there will be room for everyone who wishes to attend

Every effort is being made by the agricultural school to make the coming week one of the most profitable that Pennsylvania farmers have ever been privileged to attend at State College In reality, the session is but little more than two days long, beginning Monday evening and closing Thursday afternoon. More of Clearfield County progressive farmers should avail themselves of the educational benefits that a State College Farmers' Week holds for them.

A leading feature of the December event will be the Dairy Breeders' Field Day on Wednesday, the 20th, when the dairy cattle presented to

Governor-Elect

(Continued From Page One.)

erations.

Some important factors to be considered are:

1. The mileage of roads to be improved.

2. The funds available and the probable future revenue.

3. The relative importance of the different sections of highway routes to be improved, from the standpoint of the state as a whole and from a local standpoint.

4. The probable amount and character of traffic each road will be subjected to for a number of years.

From this information a comprehensive construction program can be laid out to fit the different situations. This will make it possible to build a greater mileage for a given sum than is possible under the present policy.

Provision should be made for a definite policy concerning the width of the right of way on the primary and secondary systems, keeping in mind future traffic requirements—such as making provisions for eventually widening the pavements approaching large centers of population.

The necessary steps should be taken for the condemnation of the land for the ultimate highway system at once.

More rigid control over the fiscal policies of the Department through the agency of a budget system common to all departments under the jurisdiction of the Governor of the State.

A comprehensive program should be determined upon for the financing necessary to complete the paving of the highway system within a given time.

This program should be given wide publicity.

The Legislature should be impressed with the importance of making the necessary appropriations to secure the Federal Aid allotments for the State. The amount allotted by the Government to be used in Pennsylvania through 1923-24 is $8,500,000. To make this sum available to the State, to be used for the construction of improved types of pavement, it will be necessary for the State to contribute $17,000,000 to be used in conjunction with the Government appropriation during 1923-24.

The Legislature should be urged to make available without delay funds to pay the deficits amounting to $7,992,536, in the appropriations for State aid, township and borough work.

Provide for the collection of motor license fees and the issuance of tags every two years instead of every year. This should result in making available an additional $450,000 a year for road construction.

Provision should be made to rebate the license fee for the second year in case the owner disposes of his automobile.

Discontinue having the county superintendents pay the maintenance labor forces. This function should be handled by paymasters reporting to the auditing and accounting division.

A law should be passed to prohibit political activity by Department employees.

A more rigid policy should be adopted with respect to oiling only half sections of a road at a time. This work should be done in such a manner that one side of the road will always be dry.

Enlist the services of an agency to co-operate with the Highway Department with a view of giving more consideration to the scenic side in planning highway improvements.

Inaugurate an intensive campaign to make all the highways known by names for the entire length of the routes—such as the Lincoln Highway.

Place signs along the highway routes calling attention to matters of general interest, such as historic sites.

Place direction signs on the entire system.

Adopt a policy if more extensive marking of divisional traffic lines in the center of the pavements.

Enlarge on the township activities but discontinue the separate township division and place this work under the jurisdiction of the Chief Engineer.

Divide the State into four highway divisions, which should be placed under the jurisdiction of division engineers.

For the purpose of eliminating duplication of effort and formulating a better balanced organization, the construction and maintenance divisions should be combined and placed under the jurisdiction of the chief engineer.

The standard of the qualifications for the county superintendents of maintenance should be raised to conform with the standards of positions carrying equal responsibility in the engineering construction division.

Discontinue the policy of calling for bids exclusively on cement-concrete pavement to such an extent as has been the practice where other comparable standard high-class types would fit the situation equally as well.

Heavily traveled waterbound macadam roads that the State is likely to maintain for a number of years should be resurfaced with penetration bituminous instead of waterbound macadam.

The Department should use superelevation for the construction of all pavements on curves.

When bids are called for on construction work, information should be given as a result of soundings, so that the bidders may more closely determine the amount of rock excavation and thus eliminate the gamble they have to incur under the present method.

COMMUNITY THANKSGIVING SERVICES

Clearfield is called upon to observe the nation's holy day by thanksgiving, Thursday coming. And the opportunities are real and attractive. The first service will be held at 9 a. m. in St. John's Lutheran church where the pastor, the Rev. E. A. Hatcher, will lead the devotions of the people.

At 10 St. Andrews Protestant Episcopal church will afford the privilege of worship. The rector, the Rev. R. A. Hatch, officiates at this service.

The same hour, the federated meeting will start in Trinity Methodist Episcopal church. In this observance are joining the Presbyterian, Baptist, United Brethren and three Methodist congregations. They invite the people of the community to share their praise, gratitude and covenantings. Summoned to such a high duty by the President of the United States every resident of Clearfield ought to be found on November 30 in the house of God voicing his deepest appreciation and vowing his sincerest service. Special music, instrumental and vocal, with addresses by clergyman and layman will make this gathering heartening and appealing.

In the evening, 7.30 o'clock, the East End folks will hold a union service, continuing the spirit of the morning meeting, in Eleventh Street Methodist church.

The offerings the people of Clearfield, all residents and visitors, are urged to make, should be generous. Every householder will receive the envelopes, which can be returned as directed, for the gifts of the people.

WORN OUT AFTER SHE COOKED A MEAL

Took Lydia E. Pinkham's Vegetable Compound—Read the Result

Cincinnati, Ohio.—"I suffered for a year with nervous troubles and irregularities before I took Lydia E. Pinkham's Vegetable Compound. My back pained all the time and I was unfit for housework. I was worn out if I cooked a meal, and was unable to do my washing. My girl friends and my sister told me if I would take your Vegetable Compound and Liver Pills I would be relieved. After taking the first bottle I felt better, and neglected it awhile, but found I could not do my work until I was stronger. So I took the Vegetable Compound again and now I am the mother of a 19 months old boy. He is fat and healthy and I am sure I could never have carried him if it had not been for your Vegetable Compound. I recommend your medicine to all women although I am young to be advising some one older."—Mrs. CHRIST. PETROFF, 218 W. Liberty St., Cincinnati, Ohio.

Lydia E. Pinkham's Vegetable Compound contains no harmful drugs and can be taken in safety by any woman.

LEGAL

In the Court of Common Pleas Clearfield County.

Mary Ethlyn Hayes vs. Clyde S. Hayes.

No. 155, September Term, 1921.

To Clyde S. Hayes, respondent.

You are hereby notified that the undersigned has been appointed by said Court Master in the above entitled case, for the purpose of taking testimony and reporting form of decree [illegible] and for the purposes of his appointment, the undersigned will sit at his office, Room 240 Deposit National Bank Building in the City of DuBois, Clearfield County, Pennsylvania, on **Saturday, December 16th, 1922, at 10:00 a. m.** o'clock at which time and place you may attend with your witnesses if any, and be fully heard.

JAMES A. GLEASON,
11|21|28 12|5|ch Commissioner.

Farmer's Week

(Continued From Page One.)

the Pennsylvania State College by the dairy breeders of the state, will be placed on exhibit and a formal presentation made. Between twenty and twenty-five gift cows and heifers will be on display. The dairy program, in addition to this ceremony, is one that not many dairymen will care to miss.

A corps of notable speakers have been scheduled to speak on the wide variety of subjects offered during the week. Members of the school faculty and of the agricultural extension service will be assisted by specialists from the State Department of Agriculture, and other who are nationally known in their special fields of work. The full program of demonstrations and meetings caters to every interest on the farm and in the home. In farm crops, livestock, dairying, fruit and vegetable growing, poultry or home economics, the selection is broad enough to suit the fancy of any and every member of the farm family.

A new section has been established for those who take an interest in subjects dealing with the conservation of Pennsylvania's wild life and its State timberlands. A strong list of speakers has been secured to lead the discussions on [illegible] Charles N. P. Fuller, State Commissioner of Fisheries; P. V. Shoop, State Commissioner of Forestry; Seth E. Gordon, Secretary of the State Game Commission and Dean R. [illegible] Watts, of the State College of Agriculture and President of the State Conservation Council.

Taken all in all, Farmers' Week offers the Clearfield Co. farmer and his family a very attractive educational and recreational two day vacation. To look over the many interesting features that have been prepared, is to draw closer to a decision to make the trip. The program indicates attendance at State College during the third week in December and no one will regret the time that is spent on such a trip. A supply of programs has been received at the office of Clearfield County Farm Bureau [illegible] to be distributed among the farmers in the County who are interested in the event.

"SONNY"

"Sonny" goes straight to your heart—just as he did to the heart of the mother who thought Lon her son, and the sister who thought him her mother.

SEALS HELP SECURE COUNTY HOSPITALS

Eleven counties in Pennsylvania now have voted to establish county tuberculosis hospitals.

In 1921 seven counties favored such a hospital in referendums, as follows: Delaware, Montgomery, Lackawanna, Luzerne, Berks, Cambria and Beaver.

This fall four counties, Dauphin, Erie, Schuylkill and Westmoreland, voted in favor of such a hospital. That the residents of these counties are heartily backing this program of providing sanatorium care for the tuberculous is shown by the strong favorable vote. The count in these counties was:

County.	Yes.	No.
Dauphin	16,916	4,756
Erie	14,671	3,811
Schuylkill	21,852	3,737
Westmoreland	15,471	2,??

Of the counties that voted for such hospitals in 1921, Berks and Lackawanna have taken over existing institutions, Luzerne, Cambria and Beaver have bought sites and are preparing to build, while Montgomery and Delaware are at work on the selection of sites.

The movement for county tuberculosis hospitals has been largely the result of a campaign carried on by the Pennsylvania Tuberculosis Society and its affiliated organizations in the counties mentioned. These citizen organizations are financed chiefly through Christmas Seals. To the Christmas Seal therefore can be given much of the credit for the providing of county tuberculosis hospitals.

Tom Sims SAYS---

One day Harding shook hands with 1450 people. This would pump 786 gallons of water or milk 94 cows.

Days are getting so short. Right after supper it is dark enough to wear a dirty collar to town.

Fashion note: Sleeves are full this winter and so are hip pockets.

Five of our most beautiful words are "Mama, the coal has come."

What is worse than learning you hunted all day with blank shells?

A Michigan man paid $25.000 for a cranberry plant. At that rate he will go into a strawberry jam.

A Seattle college girl demanding the right to wear running trunks has the right and left also.

Abbie Ades was robbed in Brooklyn. Taking them in alphebetical order.

What this country needs is shoelaces that last as long as shoes.

Radio messages traveled 5200 miles in four minutes and 18 seconds but Christmas comes faster than that.

There is a great shortage of teachers in France. Our great teacher shortage is in their pockets.

Short skirts give freedom of movement but it is much nicer to guess if they are bowlegged or knockkneed.

They are working on a heatless day for lights and many furnaces are suspected of using it.

In an effort to get to the bottom of things a party has sailed to measure the deepest part of the ocean.

Some helps: A splendid way to make a husband stay at home a lights is to stay there with him.

Nice thing about wearing an old overcoat is you can eat in a cafe without watching the overcoat.

Reason so many are calling for beer and wines is prohibition makes it harder to get a drink.

ODDS AND ENDS AND THINGS

By J. D. C.

Up to noon on Monday County Treasurer Gertrude Rumberger had issued 11,811 hunter's licenses to Clearfield county hunters, which was one thousand more than the grand total for 1921. The last couple of days before December 1st, the opening of the deer season, always brings a rush of belated hunters for their licenses. Those who procrastinate by waiting until the last minute had better keep in mind that the last day of November is Thanksgiving and that being a legal holiday the County Treasurer's office will be closed. So get your license today or tomorrow if you would enjoy deer hunting on opening day.

* * *

There is always something new bobbing up to help the bibulous in their fight against prohibition. The latest "easy jag" comes from the far off Philippines. It is supplied by a little insect found on the island of Mindoro and called by the natives "a-nik." To those who are deprived of home brew and other beverages that ameliorate the burden of the Volstead brain child the bug will come as a gift from Allah.

The sting of the insect, scientists have just informed us, causes complete but temporary paralysis of the sensory nerves within thirty minutes. Motor nerves are not affected, and the alcoholic stagger is conspicuous by its absence even in extreme cases of inebriation. Nor is there any pronounced effect upon heart or lungs.

The anesthesia produced is quite complete in fact, so much so that it has been suggested that the insect might be used in connection with minor operations. But at the same time there is a marked mental exhilaration, comparable, it is stated, to the effect produced by certain drugs of the cocaine group.

Natives who have been stung by the insect claim that the experience is distinctly pleasurable as soon as the effects are apparent, and it may not be long until a society fad will develop tourist trade to the island in order to "have a bite."

A local organization is being formed by Haward Burns and Ray Bellas to import a herd of a-niks and stock in same will soon be on the market.

* * *

An untouched Eden in the mouth of a burned-out volcano in the heart of Africa, providing a refuge for thousands of animals, many of them believed to be extinct in every other part of the world, has been purchased outright by Sir Charles Ross, inventor of the Ross rifle, and is to be explored by scientists.

It is the giant crater of Ngoro Ngoro, the largest volcano that ever existed on this planet—ten miles across and a paradise for wild things.

Nobody knows what discoveries a thorough exploration of the crater may bring. Prehistoric animals, believed to have perished from the earth thousands of years ago, may inhabit its caves. Scientists hope to find alive strange creatures, of which only the skeletons have been found in other parts of the world.

Sir Charles Ross went to Tanganyika in January, 1921, on a shooting expedition, accompanied by the ex-[illegible] photographer, T. A. Barnes, and Mrs. Frederick Dalziel, of New York. They had good sport and they discovered the crater. Sir Charles stalked and shot five lions within the basin; and the wonders he saw there made him resolve that no more shooting parties should be allowed.

There will be no need for "No Shooting" signs. The crater is 100 miles from a railway, in the midst of wild country. Lions and tigers are the watchdogs of the country which surrounds it. The number of animals in the crater is estimated at 75,000. The crater is, in fact, a city of animals, who have lived there for centuries safe from attack. Its steep sides made it a citadel of the forest, other parts of the world the work of extermination [illegible], no hunter dared to penetrate its fastness. Thus it is highly probable that animals which have perished elsewhere have survived at Ngoro Ngoro.

It is a diverting plan which Dr. Florence Brown Sherbon of the University of Kansas proposes in order to improve the physical stock of the human race. Many strange things have developed in Kansas since the days of Possawatomie John Brown. For years patent medicines had an unprecedented sale within that commonwealth, the prohibition law against liquor having been passed.

Kansas regulates the form in which tobacco is to be smoked, it tells employer and workingman how their relations must be conducted and it has at Lawrence a state university which takes a back seat for none. One of the chief graces of that university is Dr. Sherbon, who for a period of years has been notable for her advanced and progressive ideas.

Now Dr. Sherbon would hold a series of contests similar in every way to the cattle and horse stock contests which are familiar features of Kansas and other state fairs. The purpose is to apply "heridity and scientific care which have revolutionized agriculture and stock breeding," to the human family. Doubtless there is a germ of merit in the idea. But if the people of Kansas don't look out, they'll awake some morning to find that the air had been classified and metered out to consumers, and that in order to enjoy a certain number of respirations per minute, to undergo a rigid state examination.

JOHNSON—BIGLEMAN

E. C. Johnson of Grampian and Twila Bigleman of Mineral Spring, were married at St. Francis church at 7:15 this morning by Rev. Father M. A Ryan. Keenan Johnson, cousin of the groom, was best man and Miss Genevieve Myrter, of Grampian, was maid of honor Immediate families and relatives were present.

Mr Johnson has been an operator on the Pennsylvania for a number of years and is a veteran of the World war.

The happy couple embarked on the 8 20 Pennsylvania train for a honey moon tour of the eastern cities and on their return they will reside in Grampian

Both bride and groom are well and favorably known throughout this section and have the best wishes of a host of friends for a long, happy married life.

Roosevelt Policies Menaced Declare Conservation Leaders

Exemption of Muscle Shoals Violates Principles of Federal Act, and Threatens Grave Danger, They Say.

DECLARING that the Roosevelt policies embodied in the Federal Water Power Act are menaced by Henry Ford's proposal to take over the Muscle Shoals friends of Conservation have formed a special committee for the defense of the law.

The members of this committee include the leaders in the 15 years' struggle to secure the enactment of Federal statutes to protect the public's interest in water power development. Walter L. Fisher of Chicago, Secretary of the Interior during the Taft administration, is Chairman of the special committee Other members are Gifford Pinchot, Governor-elect of Pennsylvania; Henry L. Stimson of New York; Lindley M. Garrison of New York and Newton D Baker of Cleveland, former Secretaries of War; David F Houston of New York and Edwin T Meredith of Des Moines, former Secretaries of Agriculture; Governors Joseph M. Dixon of Montana and John M. Parker of Louisiana; Henry S. Graves, head of the Yale Forestry School, until recently Chief of the U. S Forest Service; Herbert Knox Smith of Connecticut, former Commissioner of Corporations, William Kent of California, former Congressman, and other prominent conservationists Philip P. Wells, formerly Chief Law Officer of the United States Forest Service, is the Secretary of the committee.

If the Ford proposal were to be accepted by Congress, says the Committee, every corporation which desires a water power privilege will demand a lease on the Ford terms The acceptance of those terms, the Committee adds, would be a death blow to the application of the principles of conservation to the use of water power. The Committee says:

"The Water Power Act of 1920 embodies well defined conservation principles and thereby protects the public interest in securing full development without having to pay monopoly profits. It does this by requiring:

1. That every water power lease shall be limited to a maximum of 50 years. (Ford asks for a 100 years' lease.)

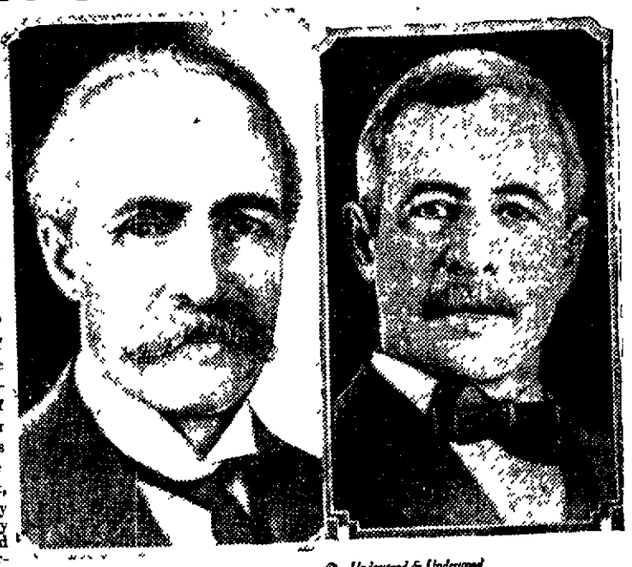
2. That the lessee shall pay the government a small rental for the power privilege when he builds his own dam and other works and a larger and fairer rental when he uses works constructed by the government. (The Ford offer contains no provision for rental fees, either large or small.)

3 That the lessee must submit to regulation by state authority, or if there is no state authority, by the Federal Power Commission, of the service he renders and the price he charges for light and power. (Under the Ford offer the lessee would be exempt from all regulation, state or national.)

4 That any excess profits over a fair liberal return on the actual investment shall be made over to the public in the form of a reduced price for the lessee's works at the end of his 50 year's term (The Ford offer places no restrictions on profits made from the sale of power development.)

"The acceptance of the Ford offer would be equivalent to a repudiation of the Federal Water Power Act. That Act is at once progressive and practical. It safeguards for all time public rights in the greatest of natural resources, but it is acceptable to investors in and to managers and promoters of water power enterprises today. It was framed with great care and embodies, perhaps beyond any other law on the statute books, the conclusions of experts in engineering, economics, legislative drafting and constitutional law.

"Theodore Roosevelt, under whose administration the fight for the law began, went to his grave before it was enacted, but he was for it heart and soul and it should stand as one of his best and most enduring monuments. The effort to get the law was continued under President Taft and achieved success under President Wilson High minded and practical men of all parties united to pass it. And it was passed in time. For once the public got in on the ground floor. "Only a small part of the enormous water power resources of the country has been developed Some eighty-five per cent of the undeveloped power is subject to control by the Federal Government. 'Shall the public stay on the ground floor or be thrown into the street?'"



© Underwood & Underwood
GIFFORD PINCHOT
Governor-Elect of Pennsylvania

© Underwood & Underwood
GOVERNOR JOHN M. PARKER
of Louisiana

TUE Ford offer, says Gifford Pinchot, is seven parts water power to one part fertilizer, even if the fertilizer part should work out. For the waterpower itself Mr. Ford would pay nothing, and he would be free from all taxes on the property. Other lessees of waterpower rights from the Government not only bear the total cost of building their own dams and powerhouses and pay taxes on them, but they also pay for the waterpower in addition. The Ford offer is like offering a man 4 per cent on the cost of his factory as rent, and then asking him to throw in a coal mine to supply fuel for the engines for nothing

UNMARRIED MOTHER AND SON ADMITTED

Kansas City, Nov. 28.—Miss Nancy Jordan, the pretty English girl mother who has been held at Ellis Island awaiting the arrival of Mrs. Mary Warren, never discussed marriage with Frank G Warren, stated Mr. Warren's attorney here today.

"I am sure that Nancy will find a welcome home with my former wife' said Warren in an interview.

WANTS PAY FOR THRESHING

Salts Fine for Aching Kidneys

Eating too much meat may clog the Kidneys, then the Back hurts.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness, and all sorts of bladder disorders

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys will then act fine This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity It also helps neutralize the acids in the urine so it no longer irritates, thus helping to relieve bladder disorders

Jad Salts is harmless, inexpensive makes a delightful effervescent lithia water drink which everybody should take now and then to help keep their kidneys clean

A well known local druggist says he sells lots of Jad Salts to folks who believe in trying to correct kidney trouble while it is only trouble.

DRIGGS THEATRE
Wednesday and Thurs.

Seven Points of Supremacy

1. The sole leather used in "FOOT-FITTERS" is of the best quality obtainable. Even the insoles are cut from standard outsole leather.
2. "FOOT-FITTERS" are the only shoes in the world having full length vamps and sole leather box toes. This feature prevents ripping at the tip and makes a smooth outer and inner surface
3. The insoles are shoulder channelled so that they fit tightly against the outsole There is no need or room for a cork filler. A small piece of duck is used to prevent squeaking.
4. The Calfskin inside counter pocket is of great value, for it saves the wear on the socks There is no rough surface to rub against.
5. "FOOT-FITTER" heels are ¼-inch longer than generally used. They give additional support to the arch and increase the comfort and wear of the shoe.
6. The vamp is reenforced with 8-oz. duck This absorbs the moisture from the foot, this keeps the vamp from cracking and holds the shoe in shape.
7. Edmonds "FOOT-FITTER" shoes are called "FOOT-FITTERS" because they fit the foot snugly Built on combination lasts they support the foot like a doctor's bandage — "FOOT-FITTERS give Comfort, Service and Appearance. —

Thanksgiving Day To See Clash

(Continued From Page One)

"Bezdek" system of play installed in his fighting squad, and the results of close and careful tutoring are evident in the record below, which the up-river town has hung up against other high teams. Six wins and two defeats for Curwensville is an enviable showing.

Curwensville, 28; Tyrone, 0.
Curwensville, 0; Williamsport 38 at Williamsport.
Curwensville, 28; Hollidaysburg, 7.
Curwensville, 57; Reynoldsville, 0
Curwensville, 48; Cooper twp. 0.
Curwensville, 7; DuBois 14, at DuBois.
Curwensville, 25; Bellefonte, 0.
Curwensville, 28; Philipsburg,. 0.
Total points, 219; Opp. 59.

GRID NOTES

The DuBois Courier today carries the following:

"It was reported in DuBois yesterday by a Curwensville rooter that if Curwensville defeated Clearfield on Turkey Day at Clearfield, they would challenge DuBois to a game to be played at Reynoldsville early in December.

However, even if Curwensville did defeat Clearfield next Thursday, it is not very likely that the Terrors would consider a game with the Curwensville eleven to be played at Reynoldsville, for the Jefferson county field is not as large as some of the others in this vicinity and thus a large crowd which would be certain to attend, could not be accommodated

"If" and a few more ifs, Curwensville defeats Clearfield and then challenges DuBois why not play the game at Clearfield, where there is every accommodation to handle a capacity crowd, and where the field is never muddy.

"But" wait Curwensville, until you defeat Flegal and Reed's aggregation on Thursday.

"Hody" Johnson, who did not get in the DuBois game, will be in shape for Curwensville.

With "Swede" Johnson, "Hody" Johnson, Bill Brown, Ham Howe, all back field stars, ready to start Thursday, Curwensville forwards are in for a busy sixty minute session.

Altoona Hi. playing their best game of the season defeated the fast Johnstown H. S. team, 13 to 7, last Saturday. An 85 yd. run with a captured fumble spelled victory for the railroad City.

Football interest in Curwensville is at such a high pitch, that on every hand people are talking about the coming game with the Red and Black Old men, young sports, girls, women and children are backing their town's gridiron representatives to the limit.

This evening a great "Pep" meeting is scheduled to take place at the Curwensville High School building, to arrange all the details for the Blue and Golds invasion of the County seat.

Bands, colors and a regular caravan of cars will arrive in Clearfield early and parade around the town. If Curwensville does not win, it will not be caused by a lack of spirit, for their footballers will have the largest bunch of rooters on hand, of any squad that ever invaded the Old Town.

Mexico to Try Radio.

The installation of small radio outfits in 118 lighthouses of the department of communications, Mexico, is to be given a trial. Two sets are being supplied after which, if the results are satisfactory all lighthouses will be similarly equipped.

A Dainty Display Of CLEVERLY DRESSED DOLLS

For weeks past the Junior Women's Club has been busily engaged in dressing all sorts and kinds of dolls for Xmas selling.

These dolls will be on display at **KNEPP'S FURNITURE STORE** beginning Friday, December 1st, and where you may purchase any of them.

Junior Women's Club

OFFICER AND BANDIT DIE IN GUN BATTLE IN COLUMBUS, OHIO

Columbus, O., Nov. 28.—One policeman and an auto bandit were killed in a street battle between the officer and four bandits here last night. George Koehler, the policeman, was shot through the abdomen and died in a hospital several hours later. He thought he had disarmed four auto bandits whom he had caught stealing a car.

The slain bandit, thought to have been from Erie, Pa., was found in the car which had been run into a ditch near West Jefferson several miles from here.

Thought for the Day.

If we were as pleasant all the time as we are when we want to be, this would be a much happier world.

Ship Gave Name to River.

The Columbia river was named after the ship Columbia, whose crew discovered it.

UNCLE KILLS NEPHEW WHEN LATTER JUMPS IN FRONT OF HIS GUN

Clarion, Nov. 27.—Jumping in front of his uncle's gun as the latter fired at a rabbit, William Gray, eight years old, son of Mr. and Mrs. Ralph Gray, of Wilson, received the shot in his left side and died five minutes later near this place.

The fatal accident occurred near Clarion Junction on the Baltimore and Ohio Railroad when William and his uncle, Walter Gray, aged 14 years, and another youth were out in a field. William sighted a rabbit and shouted the news to his uncle who was a few rods away. The latter stopped and raised his gun to his shoulder, took aim, but the boy kept running. Just as the gun was fired William ran in front of the weapon.

A coroner's inquest was held this morning and jury absolved Mr. Gray from all blame.

The parents, one sister, and one brother, Thomas, survive.

LYTTON—HAGGERTY

Miss Beatrice Haggerty and Albert Lytton, well known local young people, were married at the Elect Street Methodist Episcopal church yesterday afternoon. The ceremony was performed by Rev. C. K. Gibson in the presence of a few close friends of the contracting parties. After a short honeymoon the couple will reside in Clearfield.

Classified.

"The nerve of that guy," complained Jimmy the office boy, "offerin' me six dollars a week. What's he think I am—college graduate?"—N. Y. College Mercury.

Stray Bits of Wisdom.

Melodrama for the crowd; tragedy for women; comedy which depends for any for the flunkies.—Victor Hugo.

Quill Pens Long in Use.

It has been asserted that quills have been used for writing as early as the Fifth century.

PIMPLY? WELL—DON'T BE

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel—there's no sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Olive Tablets are a purely vegetable compound mixed with olive oil, you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look. 15c and 30c.

MUMS For Thanksgiving

We have them in pink, yellow and white.

Why not make it some of those wonderful Pom-Poms?

Let us book your order before 9 A. M. on Wednesday.

Our Primroses and Cyclamens are fine just now.

BEAHAN'S

NOSE CLOGGED FROM A COLD OR CATARRH

Apply Cream in Nostrils To Open Up Air Passages.

Ah! What relief! Your clogged nostrils open right up, the air passages of your head are clear and you can breathe freely. No more hawking, snuffling, mucous discharge, headache, dryness—no struggling for breath at night, your cold or catarrh is gone.

Don't stay stuffed up! Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic cream in your nostrils let it penetrate through every air passage of the head, soothe and heal the swollen, inflamed mucous membrane, giving you instant relief. Ely's Cream Balm is just what every cold and catarrh sufferer has been seeking. It's just splendid.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

Howard Stewart and ex-Mayor [illegible] M. Chase, of Clearfield, were Curwensville visitors on Saturday. Chase is an old upper Clearfield county boy and was raised in Happy Valley in the days when pine trees stood as thick in that section of the county as fleas on a dog in June. His memory is a storehouse of lumbering incidents that occurred during his youth, and are interesting records for the youth of today who never saw a raft afloat

David R Fleming left on Saturday for Pittsburgh where he will spend a few days and from there on his journey to the State of Alabama in which territory he is interested in some oil wells.

Mr. and Mrs. John P. Irvin are now located in Atlantic City and expect to remain at the ocean side for two or three weeks.

A very pleasant party was given Franklin Lewis at his home on upper Ridge avenue last Thursday evening when a number of young folks arrived to help celebrate his birthday anniversary. The evening was spent playing games and dancing and at near the midnight hour delicious refreshments were served, after which the guests departed for their respective homes wishing "Haney" many more happy returns of the day

Rev. S. Nathan, who hails from the town of Mesopotania addressed the Presbyterian congregation on Sabbath morning.

Archie Davidson, of Williamsport was in Curwensville yesterday. He was removing some household goods to his down river home that had been stored on second floor of the Bickford store building.

Mrs. James Sheridan has gone to Clearfield to spend several weeks with her parents.

Alex Whittaker, a resident of Clarksburg, W. Va., after several days of visiting with his mother Mrs. A. B. Whittaker, South Side departed for his home in the sunny South yesterday.

All business houses, barber shops, etc., in Curwensville will be closed all day Thursday. The delegation to Clearfield ball game will reach over the 500 notch.

The funeral of John Bennett, who died last Saturday night, was held from the home this afternoon. Deceased was born and reared in Pike township and was a son of William and Sarah (Gearhart) Bennett His exact age was 67 years and 7 days During the earlier epoch of his life he worked on the farm and in winter followed the life of a woodsman He was married three times, the lady of his last choice survives him, together with a number of children Mr Bennett was affiliated with the Loyal Order of Moose, a number of his brethren attending the last sad rites. Funeral Director Dovercpike conducting the funeral, he having the body in charge. Interment in Oak Hill cemetery. Mr. Bennett, although of a quiet demeanor, left many warm friends behind who deeply sympathize with the bereaved family

Harold Daugherty, who makes Little Rock, Ark. the city of adoption, is home and will spend Thanksgiving week with his parents, Mr and Mrs. George Dougherty, South Side. The young man is employed by the Luter Bridge Company, as general manager and estimator in their line of work His territory includes Arkansas and Texas. Throwing upon his own resources, at an early age, his stock in trade being brains and muscle he has more than made good, and is held in high esteem for his valuable worth by the big corporation which he represents. Curwensville is proud of him.

The snow fall of Sunday and yesterday gave the kids their first chance at a snow ball fight Going to and from school the little shavers surely took advantage of the time between bells to gratify desire for pelting one another.

If good luck prevails Edward Bros will have three large and brand new auto buses on the road between Curwensville and Clearfield by Thursday. Their representatives left for Cleveland O, yesterday to bring same in.

John Weisgarber, of near Grampian and one of the scientific agriculturists in Penn township, spent some time with his son, Harry Weisgarber yesterday He is serving as a juror this week but was relieved from duty for the day

The garage which was partially burned one day last week, is being reconstructed

Bricks are now down about half way up the stretch on Walnut street. By a little energy and pep the work might be completed before Thanksgiving

American Education Week will be observed by the Curwensville public schools from December 3d to the 9th inclusive. A program is now in course of construction which ought to prove of vast and everlasting interest to all parents having children attending the schools in any capacity Special subjects relative to patriotism true citizenship, school work, literacy and physical education will be some of the main features on the program As a rule parents of school pupils in this town do not visit the school rooms as often as they should and ascertain just what work is going on within the walls Pupils soon become discouraged in their school work when the parents shows lack of interest in their educational welfare On a rough estimate we should say that there has has not been more than two dozen parents visited the schools during the progress of the present term. It has not been because the invitation has not been extended to them time and again but just because they are dilatory and do not have any interest in the progress their offsprings are making toward securing a sufficient education to carry them through life when their school days are left behind and go out into the world to make a fight for wealth and prominence

For the past two years Curwensville has had a Community Christmas tree, and short exercises held on the campus at the High School building. This coming Christmas will be no exception to the rule, and already plans and arrangements for casting a bigger event than ever, Many poor children who are not remembered on this day as bountifully as they anticipated receive cheerful tokens and are therefore made happy, not so much from the amount of goodies and clothing, etc, that they receive but from the standpoint that they are brought into the holiday and gladness, to mingle in companionship with other children of the town who otherwise rarely acknowledge their presence because they are better clothed and fed In a sense Christmas is Christ's day, and we should try and exemplify his teachings by assisting others who have not been as fortunate in accumulating any great amount of this world's goods which really is not ours but His and of which we are but borrowers.

TRINITY CHURCH MEETING

Took a very interesting and enjoying turn last night. That company that came together had a soulful song period. The large chorus did finely and the selections of Prof Jones were exceptionally happy and strong in their great sentiment and thought, his own was delightful

From Acts 11:18 the preacher presented Repentance, which was analyzed, discussed and presented from various angles Then came the altar service which proved to be a lively part of the meeting. If this meeting is to be remembered for any one feature above the intense spiritual characteristics it will be the smiling service A happier crowd has not assembled in Trinity during the series of meetings

Tonight's subject is "The Kingdom of Heaven Suffereth Violence" The public is invited Come in time for the song service.

True to Type.

Six men, sole survivors of a wreck, were cast upon a desert isle, where they abode for some months till a man-of-war took them off In his log the captain of the warship noted the racial characteristics of the six thus: The two Irishmen had fought every day for the whole time of their sojourn The two Englishmen had not spoken to each other because they had not been properly introduced The two Scotchmen left Caledonia equally

PEOPLE OVER FORTY

People aged forty or over are less able to resist the attacks of colds grippe, influenza or pneumonia than young people Their vital force lacks the powerful resistance of youth Constipated bowels, sour stomach indigestion, biliousness and weak kidneys all tend to lower the physical resistance Millions of people now use Bulgarian Blood Tea to keep the bowels open and improve the blood Bulgarian Herb Tea taken steaming hot will help break up a cold quickly Physicians and druggists everywhere recommend it

HAPPY CHRISTMAS FOR THOUSANDS

Christmas Seals Have Big Part in Preventing Many Deaths From Tuberculosis.

Harrisburg, Dec 1—Christmas Day 1922, will be a very happy one for thousands of Pennsylvanians who have been saved from death by tuberculosis Facts regarding this remarkable campaign against a great plague are set forth by John S Fisher Pennsylvania Chairman for the Christmas Seal sale, in the following:

"Approximately 6000 happy persons will sit down to Christmas dinners in Pennsylvania on December 25th next who would not be there if the tuberculosis death rate for this year were the same as it was in 1906

"On the same basis the lives of 27,500 Pennsylvanians have been saved in the intervening years and many thousands more have been prevented from contracting tuberculosis. This saving of human life has been the result of a constantly growing organized effort to combat and destroy the White Plague

"Those thousands of persons are living proof that tuberculosis can be cured and prevented.

"The citizen tuberculosis organizations which have had a part in this winning fight are planned mainly through the Christmas Seal The Christmas Seal protects against tuberculosis It teaches those who have the disease how to take care of themselves and not to communicate the disease to others and it does well people how to keep well

"The 1922 Christmas Seal graphically expresses this thought of protection and love It depicts a mother with a child in her arms Beside them is the double barred cross the emblem of the citizen tuberculosis organizations

"A Christmas Seal costs only a penny but helps to save lives"

SEALS SAVE LIVES

The decreasing death rate from tuberculosis is proof that the organized campaign against tuberculosis is a winning fight An important factor in this fight is the Christmas Seal Statistics on Pennsylvania follow

	Deaths From Tuberculosis (All forms)	Rate Per 100,000

Huge Bombing Plane Constructed by U. S.

Monster of the Air Will Carry 10,000 Pounds of Explosives

By PAUL. R. MALLON
(United Press Staff Correspondent)

Washington, Nov. 28 (United Press).—A new Leviathan of the air—a huge bombing plane which can carry 10,000 pounds of aerial explosives—has been constructed by the Army Air Service.

The giant ship called the Barling bomber uses more than 180 gallons of gasoline an hour and is constructed to carry heavy loads for long distances. It is a triplane of 120 feet wing spread, an overall length of 65 feet and is 28 feet high.

The ship shows a great development over the largest type of bomber used in the world war. A total of 4,000 pounds of bombs may be carried for 12 hours. Two thousand gallons of fuel gasoline would be required for such a trip. The plane, however, can carry 10,000 pounds of bombs for seven hours.

To propel this giant ship six 400 horsepower Liberty motors have been installed. An intricate meter system has been installed to tell exactly how each of these motors are running.

A telephone has been fitted out to enable conversation between those in the front and rear of the cabin and a powerful radio apparatus has been installed to communicate with the ground.

When the parts of the ship were sent from the factory of the Witteman Aircraft Corporation at Hasbrouck Heights N. J. to Fairfield, Ohio special cars had to be provided by the railroad and the cars were routed to avoid certain tunnels through which the big parts could not have passed.

The plane soon will be tested out at Fairfield, Ohio.

MAYOR FINES PHILIPSBURG MAN

Felix Frelin, of Philipsburg, is not felixing as frelin as he did before he met Mayor Kittelberger last evening. The Philipsburg man was motoring over this way Sunday week about the time the fire alarm sounded and he disputed the right of way with one of the fire trucks. Capt. Bill Sutton of the Fire Police Patrol, got Frelin's numb. and so was summoned before Mayor Kittelberger last evening. The young man was quite "cocky" when he was put on the carpet but got his "comb cut" when the Mayor ended the argument by telling Frelin it would cost him $12.50. He settled too.

Thought for the Day.

A gentleman is not so much the man who forgets himself as the man who thinks of others.

—Try Our Business Printing Dep't.—

SPECIAL SERVICES ON THANKSGIVING DAY

The Christian and Missionary Alliance will hold two services on Thanksgiving day, corner of Filbert and George streets, Curwensville, Pa. There will be the old time Gospel preached, as well as singing. Evangelist Wm. Warren of Toccoa, Ga. Bible School assisted by the Alliance pastor. The purpose of these services is to Glorify God, Salvation of Sinner, Sanctification of believer Healing of the sick and to hasten the coming of our Lord and Savior, Jesus Christ for His church. Services at 2:30 and 7:30 p. m.

All are cordially invited.

HOW "HAP" GILLING VIEWED THAT GAME

Monday's DuBois Express continued the following story of Saturday's football game from the pen of "Hoppy" Gillang, the city and sporting editor of that paper:—

The bottom dropped out and the sides caved in on the DuBois High School football championship bubble when the big Black and White team battling a smaller but faster outfit Clearfield, was not only outplayed in every department, but was given a bad beating by the score of 33 to 0.

Out-gained, out-speeded, out-thought and even out-plunged, there was little glory in the game for the Black and White outfit and the team and followers are deeply disappointed by the turn of events. Despite the surprise of the victory for Clearfield and the disappointment felt here, there is no tendency among the DuBois fans to discredit Clearfield's team one bit. The home boys were alive and aware where DuBois seemed dead or asleep.

Making Breaks.

Digging deeply into the bag of excuses the only one brought forth is that the breaks were against DuBois. That is true, but it was a Clearfield day and, like a good winner, the Clearfield team made their own breaks. And making their breaks and taking advantage of them, just naturally developed that morale that is so infinitely a part of success in high school athletics. That's all there was to the game.

After a few downs at the very opening of the game, when the DuBois High cut it showed its heels, a break or two went against DuBois and those breaks seemed to burst the bubble entirely. After that the beef on the DuBois team proved to be nothing more than beef, while the absence of beef on the Clearfield team was made up in speed.

Crashing against the line or skirting the ends, or throwing passes Clearfield pierced the DuBois defense time and again. Everything Clearfield tried worked for a gain, large or small. Sometimes DuBois held, but most of the time the vaunted D. H. S. line was set back upon its haunches. And when DuBois did get the ball, there seemed to be a lack of confidence, a lack of power and drive, and a lack of decision and strategy that caught every member of the team in its meshes.

The breaks were against DuBois, we repeat. Pifer was hurt early in the game. Chuck Cline fumbled kicks at the most critical times, and the DuBois forward passes went into Clearfield hands. In fact, Bill Brown caught one on his ten-yard line and romped away for a 90-yard run and score. Brown was the brilliant star of the game, with "Swede" Johnson running him a strong second. Betts Pearce and Ganoe also played finely. Not a DuBois player stood out any more prominent than to pick off a nice tackle or two.

TUBERCULOSIS DAYS DECEMBER 3 AND 9

Observance in Churches and Schools in Connection With 15th Christmas Seal Sale.

Harrisburg, Nov. 23.—Tuberculosis Day will be observed in the churches December 3 and in the schools December 8 as features of the Christmas Seal Sale. In this connection John Fisher, Pennsylvania Chairman in the Christmas Seal sale, said:

"All church and educational workers are vitally interested in the physical as well as in the intellectual, moral and spiritual well being of our people. It is, therefore, appropriate the church and school put forth their best efforts in conserving the health of our citizens. Inasmuch as the schools and Sunday schools deal with the youth of the young people, they furnish a inviting field in the war against tuberculosis.

"The Christmas Seal has become a vital factor in bringing better health and longer life to the people of Pennsylvania. It is the means of preventing tuberculosis and of restoring to health those who have fallen victims to its ravages.

"We confidently put the case before the pastors, Sunday school superintendents and workers and teachers in our public schools. We earnestly solicit your help and ask you to emphasize on the days above designated the dangers and treatment of tuberculosis to the end that health may be improved and life prolonged, and particularly the part which the Christmas Seal plays in this great effort."

DRIGGS THEATRE
Wednesday and Thurs.

WE'LL HELP YOU WITH YOUR THANKSGIVING DINNER MENU

It'll be a revelation for you to come here first with your ideas of what you are going to serve with your turkey on Thursday.

Of course you'll want at least two kinds of vegetables—and we'll have them. You'll want some kind of fruit—we'll have lots of that. And possibly you'll want to stuff that turkey with oysters—we'll have them aplenty.

We want to serve you and aid you in the preparation of your dinner and you'll find that we have some things that you won't find anywhere else.

THORN BROS.

Your Thanksgiving Candies

You will find that when you top off your Thanksgiving dinner with some of our home-made candies or, if you have them to eat during the afternoon, you will have something out of the ordinary.

VOLUME XVI — THE CLEARFIELD PROGRESS, CLEARFIELD, PA., TUESDAY EVENING, NOVEMBER 28, 1922.

PRESIDENT HARDING AGAIN TAKES UP PROHIBITION ENFORCEMENT QUESTION WITH ADVISERS AT CABINET SESSION

Country-Wide Violations of Volstead Act Causing Grave Concern at the Capital.

MIDDIES GOT FULL

Washington, Nov. 28.—A conference for the curbing of the widespread violations of the liquor laws by the midshipmen in Philadelphia, following the Army and Navy game on Saturday was being held by President Harding and his cabinet today, calling in Prohibition Director Davis of Pennsylvania for his version of the affair.

Davis held that he was not responsible for the wetness of the Navy in a certain hotel in Philadelphia, claiming that the liquor was reported to him as being "imported into the city."

Washington, D. C. Nov. 28—Prohibition was expected to be discussed by President Harding and his cabinet at the meeting for today. Secretary Denby, who has threatened to start an investigation of all the circumstances surrounding the heavy drinking of the Annapolis midshipmen following the Army-Navy football game in Philadelphia Saturday, will go over the situation to devise some plan to cope with the situation, stating that present conditions cannot continue.

Mellon believes that it will take a small army to enforce the statutes as they now stand, in fact, he says that strict enforcement is impossible.

No plans have been yet put before the Cabinet to check up the wave of current violations.

Philadelphia, Nov. 28.—More liquor is flowing into the United States now than at any time since the prohibition laws went into effect, said a high government official connected with the enforcement department today.

"Rum runners have doubled their activities." the official declared "and the government agents are powerless to stop them owing to an insufficient force of men."

SIX MEMBERS OF GREEK CABINET TO LOSE THEIR LIVES

Athens, Nov. 28.—Six members of the Former Greek Cabinet, held responsible for the return of the Turks, were ordered to be executed and two others were ordered to be imprisoned for life.

Among those sentenced to death was former Premier Gounaris, arch enemy of Venezelos and instrumental in restoring Constantine to the throne. He succeeded Venezelos as premier under Constantine.

Athens, Nov. 28—Six members of the Cabinet, which fell when King Constantine abdicated, were executed here today it was officially announced. They were shot by a firing squad

These ministers were held responsible for the defeat of the Greeks in the war with Turkey and were charged with the Greek collapse

DOUBLE KILLING AT HUNTINGDON, N. Y., BEING LOOKED INTO

Huntingdon, N. Y, Nov. 23.—The slaying of John Leitch, 29, who it is alleged, shot and fatally wounded his fiance, Miss Rose Landrisser, 18, is being probed by the police and the coroner today.

Edward Scudder, at whose home the double tragedy occurred says that he killed Leitch after he had shot Miss Landrisser during a lover's quarrel and after he had attempted to shoot at Mrs. Scudder.

"Leitch and Miss Landrisser were in the front room. We heard a shot and rushed in and found Miss Landriser lying in a pool of blood", Scudder said "I drove him from the house with a shot gun and he rushed for his car and began to circle the house. He snapped his gun at Mrs. Scudder but it failed to explode and then I shot him." Scudder continued.

DE VALERA NAMES HIS NEW CABINET

Dublin, Nov 28—Eamon de Valera, from his hiding place, defied the Free Staters by naming a new cabinet for the Irish Republic. Most of the "rebel" cabinets that have been heretofore named have been placed in jail.

Mrs. Geo. S. Long and son Jr. George Lynn, of Philipsburg, spent Sunday with her parents, Mr. and Mrs. Sterling Simcox on Mill Road.

PITTSBURGH MAN MEETS HORRIBLE DEATH IN FURNACE

Pittsburgh, Pa., Nov. 28.—After three weeks of investigation, the coroner has decided that Peter Serzen, aged 57 of Duquesne met his death by being dumped into one of the open hearth furnaces of the United States Steel Co.

Serzen had charge of the cars loaded with ore that were to be dumped into the furnaces and it is supposed that he was caught in one of them, meeting instant death and annihilation by being dumped into the furnace.

'PIG WOMAN' REPEATS HER STORY OF HALL-MILLS MURDER SCENE TO GRAND JURY

Somerville, N J., Nov. 28—With Mrs Edward Hall awaiting her opportunity to demand a hearing before the grand jury, Mrs Jane Gibson, the "pig woman," gave her testimony here this morning.

As she passed through the corridors of the court house on her way to the grand jury room she passed within a few feet of Mrs. Hall, whom she says she saw at the place of the double tragedy on the night of September 14th last. The widow did not twitch a muscle as the "pig woman" passed her. As the witness passed Mrs. Hall, Miss Sally Peters glanced at her and then conversed in a whisper with Attorney Pfeiffer.

Mrs. Gibson was flanked by State policemen as she traversed the corridors

Her testimony was secret but if she has not changed her story she says that she was riding her mule down through Lovers' Lane toward the abandoned Phillips farm on the night that the Rev Edwin Hall and his "wonder-heart" choir singer, Mrs. Elmer Mills, were slain. Later she returned and stated that she saw a woman weeping over the bodies of the slain pair and that she recognized the woman as Mrs. Hall, by the aid of a passing automobile headlight

Govenor-Elect Pinchot's Business Men's Committee Will Recommend Some Very Radical Changes In Highway Department

Suggests Budget System That Will Eliminate Many Obselete Practices In the Handling and Disbursing of Monies; $250,000,000 Needed to Finsh Improving of Rest of Road System.

WANT DEFINITE SYSTEM FOR FUTURE

Philadelphia, Pa., Nov. 28. (U. P.) In a survey of the fiscal policies of the State Highway Department, by the citizens committee on the finances of the State of Pennsylvania, many changes to revolutionize the highway policies were recommended.

The committee's report, submitted to Governor-elect Gifford Pinchot, will be used towards making up the State budget under the new administration, which takes office in January.

A summary of the recommendations follows:

The highways included in the Sproul Act were not placed under the jurisdiction of the State until June 1, 1912. During the administration from Jan. 1st, 1911 to January, 1915, the progress made was not startling.

During the first half of the administration beginning January, 1915, considerable progress was made The administration of the department under the late Commissioner Sadler has been the most progressive thus far

Subsequent events justify the opinion that during the Sadler administration the first consistent effort was made to place the department on a high plane.

At present the department is operating on more or less of a budget system of its own, but a review of the history of the deaprtment points to the necessity of controlling the appropriations and expenditures thru a well defined budget system common to all other departments.

The monthly financial statement of the State Highway Department, dated August 31, 1922, indicates a deficit of $11,990,710 25 of General Fund Appropriations for the use of the State Highway Department. This total is made up as follows:

State Highway Appropriations 1917, 1919, 1921	$ 3,546,058.38
State Aid Highway 1917, 1919, 1921	6,663,256.42
Maintenance and Repairs (borough) 1921	285,637.82
Maintenance and Repairs (State Aid) 1919, 1921	166,477.57
Township Reward 1919	414,853.20
Township Reward 1921	914,426.78
	$11,990,710.24

Of the total deficit $7,992,536.47 is made up from appropriations made by the legislature, to assist these sub-divisions in their road programs. This is a hardship on the local communities. It is, also, an illuminating example of the necessity for conducting the business of the State on a budget system

Based on the average cost per mile of the last four years it will cost about $230,000,000 to pave the unimproved roads on the highway system with an improved type of pavement and an additional $120,000,000 to replace the waterbound macadam roads with an improved type

The Department should determine upon a road improvement policy that will take into consideration the completion of the paving of the highway system within a reasonable time and at a justifiable expense.

This necessitates making a comprehensive Highway Transport Survey, so that plans can be formulated based on economic and business consid-

Christy Mathewson.

FORMER M. E. BISHOP IS DEAD AT HIS HOME IN MEADVILLE, PA

Meadeville, Pa., Nov. 28.—John Thorburn, until his retirement head of all missionary work for the Methodist Episcopal church in India, died here this morning at 6:30, aged 86 years. Death followed a lingering illness.

The former bishop was widely known for his wonderful work among the missions of India and was a writer of considerable repute, having at one time been the editor of "The Indian Witness," widely read publication printed in Calcutta.

Among the important writings of Bishop Thorburn were: "My Missionary Apprentice," "India and Malaysia," "The Light in the East," and "The Christian Nations."

He was born on a farm near St Clairsville, Ohio, on March 7th, 1837 and was elevated to the bishopric in 1888.

PRETTY AMERICAN GIRL'S DEATH TO BE CAREFULLY PROBED

Paris, Nov. 28.—The burial of Miss Rose Shaunessy, the pretty American girl has been delayed at the request of the American consul here pending the investigations into her mysterious death in the apartments of a wealthy bachelor here.

Miss Shaunessy was found in the apartment dying from many bullet wounds thought at first to have been self-inflicted.

While the authorities will not give out the name of the man in whose apartments the tragedy occurred it is understood that he is the nephew of one of the publishers of one of the leading evening newspapers of Paris

BOWLING LEAGUE TO BE ORGANIZED

Every one who is interested in Bowling is invited to attend a meeting at the Y. M. C A. on Tuesday, Nov. 28, 1922 at 7:30 o'clock.

This meeting will be held for the purpose of organizing a league and forming rules to govern the activities of the league for the coming months.

Miss Mary Liveright leaves tomorrow for New York City, where she will spend the winter

THANKSGIVING DAY TO SEE CLASH BETWEEN CURWENSVILLE AND CLEARFIELD HIGH

By DICK LEIPOLD

Thanksgiving day Clearfield Hi will close the local foot ball season when the crack Curwensville squad will invvade the County Seat and do their best to dethrone the Red and Black from the present high place they are occupying in this section of the State. The local squad, barring a few bad bruises received on Saturday's frozen turf, are in good condition and should be able to offer their most formidable line-up against the up-river eleven. A light workout today, followed by a signal drill tomorrow afternoon will conclude Coach Reed's stalwarts, preparation for the invading gridders.

A Little Dope on the Curwensville Team

Thursday's meeting between Clearfield Hi and Curwensville Hi will be the first since 1917, when the locals crushed the Blue and Gold gridmen 67 to 0. Last fall the Curwensville Athletic Association went after things right and laid the foundation for this season's powerful machine. Experienced men from the 1921 squad formed the neucleus around which Coach Black built his present winning combination. "Becken" Norris, versatile field general, started his foot ball career in 1917, when he called the signals for the Curwensville High team that battled Jim Cochrane's fast Red and Black outfit. Norris is the most experienced quarterback in the county playing high school ball. In the DuBois game on DuBois, he greatly out-manuvered the city team's quarter. But Norris should be a resourceful, heady player for, even seven years ago, when his first donned, moleskins he put up a versatile game. "Olie" Olson, veteran full back, is reported by both Clearfield and Curwensville fans to be a man no line has yet been able to stop while Ned Edwards the giant colored athlete plaves a wonderful defensive game at end. Edwards received his early foot ball knowledge at a southern school. This trio of stars are the men that should be the shining lights in the Villagers' attack, iff they can repeat the class showing against the Red and Black that they have made against other teams this season.

A Good Record For 1922

Coach Black, who is a product of Penn State College, has a regular

(Continued on Page Five)

ENLARGEMENT OF HILLCREST FOUND TO BE NECESSARY

The Clearfield Cemetery Company has purchased a plot of ten lots in Fourth Ward from James Mahaffey and will add this property to Hillcrest cemetery. The land immediately adjoins the cemetery, being separated by the driveway off Woodland road beyond the entrance to Hillcrest.

There is sufficient ground in the new addition to make eighty cemetery lots. The consideration was $5250.

FRENCH CABINET APPROVES PLAN TO STRIP GERMANY

Paris, Nov 28—President Poincare's plans for the seizure of property and German territory were approved by the French cabinet today, and the reparation crisis which has been pending for some time is now considered unavoidable.

The plans were outlined in a note sent to the Allies.

France's move will probably take place next January when the next payment is due.

Seizure of the Ruhr district and the establishment of an independent regime on the left bank of the Rhine will probably be the gist of the plan.

Miss Jean Eleanor Houser is visiting in Juniata.

NEW POSTMASTER FOR CLEARFIELD IS STILL LAUNCHING

Notwithstanding the fact that Postmaster W. E. Tobias' resignation has been in the hands of the Postmaster General for the past three months not much has been done thus far toward getting us a new postmaster or relieving Mr. Tobias of the burdens of the office, which became so distasteful to him that he gladly tendered his resignation.

The matter of a successor to Mr. Tobias is in the hands of the Civil Service Commission. That august, bewhiskered, and highly useless aggregation of old fossil ideed idealists ordered an examination for postmaster of Clearfield in September last, but so far nothing further has been heard from them.

There are three applicants in the race, at least that many filled out the customary questionnaire and filed same with the Civil Service Commission They are:—Dr. C. E. Chase, C. E Roseberry and S. A. Row, of the present postoffice force.

PUNXSUTAWNEY HAS FIRST DEATH FROM COASTING THIS FALL

Punxsutawney, Pa., Nov. 28.—John C. Philips, aged 7, was killed and his father and two brothers were seriously injured today in the first coasting accident of the season.

FARMERS' WEEK AT STATE COLLEGE TO OPEN DEC. 18TH; CLEARFIELDERS GOING

Quite a few Clearfield County farmers are counting on spending some time at the Pennsylvania State College between December 18th and 21st, when the winter series of farmers' meetings is to be held. The last previous winter Farmers' Week was held in February, 1919, when in response to a popular suggestion, it was decided to hold sessions in June, at which time a larger number of people can be accommodated. This year, with the students away from the college enjoying their holiday vacation, there will be room for everyone who wishes to attend

Every effort is being made by the agricultural school to make the coming week one of the most profitable that Pennsylvania farmers have ever been privileged to attend at State College In reality, the session is but little more than two days long, beginning Monday evening and closing Thursday afternoon. More of Clearfield County progressive farmers should avail themselves of the educational benefits that a State College Farmers' Week holds for them.

A leading feature of the December event will be the Dairy Breeders' Field Day on Wednesday, the 20th, when the dairy cattle presented to

(Continued on Page 5).

NEWSPAPERARCHIVE®
NEWSPAPERARCHIVE®

Governor-Elect

(Continued From Page One.)

erations.

Some important factors to be considered are:

1. The mileage of roads to be improved.

2. The funds available and the probable future revenue.

3. The relative importance of the different sections of highway routes to be improved, from the standpoint of the state as a whole and from a local standpoint.

4. The probable amount and character of traffic each road will be subjected to for a number of years.

From this information a comprehensive construction program can be laid out to fit the different situations. This will make it possible to build a greater mileage for a given sum than is possible under the present policy.

Provision should be made for a definite policy concerning the width of the right of way on the primary and secondary systems, keeping in mind future traffic requirements—such as making provisions for eventually widening the pavements approaching large centers of population.

The necessary steps should be taken for the condemnation of the land for the ultimate highway system at once.

More rigid control over the fiscal policies of the Department through the agency of a budget system common to all departments under the jurisdiction of the Governor of the State.

A comprehensive program should be determined upon for the financing necessary to complete the paving of the highway system within a given time.

This program should be given wide publicity.

The Legislature should be impressed with the importance of making the necessary appropriations to secure the Federal Aid allotments for the State. The amount allotted by the Government to be used in Pennsylvania through 1923-24 is $8,500,000. To make this sum available to the State, to be used for the construction of improved types of pavement, it will be necessary for the State to contribute $17,000,000 to be used in conjunction with the Government appropriation during 1923-24.

The Legislature should be urged to make available without delay funds to pay the deficits amounting to $7,992,536, in the appropriations for State aid, township and borough work.

Provide for the collection of motor license fees and the issuance of tags every two years instead of every year. This should result in making available an additional $450,000 a year for road construction.

Provision should be made to rebate the license fee for the second year in case the owner disposes of his automobile.

Discontinue having the county superintendents pay the maintenance labor forces. This function should be handled by paymasters reporting to the auditing and accounting division.

A law should be passed to prohibit political activity by Department employees.

A more rigid policy should be adopted with respect to oiling only half sections of a road at a time. This work should be done in such a manner that one side of the road will always be dry.

Enlist the services of an agency to co-operate with the Highway Department with a view of giving more consideration to the scenic side in planning highway improvements.

Inaugurate an intensive campaign to make all the highways known by names for the entire length of the routes—such as the Lincoln Highway.

Place signs along the highway routes calling attention to matters of general interest, such as historic sites.

Place direction signs on the entire system.

Adopt a policy if more extensive marking of divisional traffic lines in the center of the pavements.

Enlarge on the township activities but discontinue the separate township division and place this work under the jurisdiction of the Chief Engineer.

Divide the State into four highway divisions, which should be placed under the jurisdiction of division engineers.

For the purpose of eliminating duplication of effort and formulating a better balanced organization, the construction and maintenance divisions should be combined and placed under the jurisdiction of the chief engineer.

The standard of the qualifications for the county superintendents of maintenance should be raised to conform with the standards of positions carrying equal responsibility in the engineering construction division.

Discontinue the policy of calling for bids exclusively on cement-concrete pavement to such an extent as has been the practice where other comparable standard high-class types would fit the situation equally as well.

Heavily traveled waterbound macadam roads that the State is likely to maintain for a number of years should be resurfaced with penetration bituminous instead of waterbound macadam.

The Department should use superelevation for the construction of all pavements on curves.

When bids are called for on construction work, information should be given as a result of soundings, so that the bidders may more closely determine the amount of rock excavation and thus eliminate the gamble they have to incur under the present method.

COMMUNITY THANKSGIVING SERVICES

Clearfield is called upon to observe the nation's holy day by thanksgiving, Thursday coming. And the opportunities are real and attractive. The first service will be held at 9 a. m. in St. John's Lutheran church, when the pastor, the Rev. E. A. Hatcher, will lead the devotions of the people.

At 10 St. Andrews Protestant Episcopal church will afford the privilege of worship. The rector, the Rev. R. A. Hatch, officiates at this service.

The same hour, the federated meeting will start in Trinity Methodist Episcopal church. In this observance are joining the Presbyterian, Baptist, United Brethren and three Methodist congregations. They invite the people of the community to share their praise, gratitude and covenantings. Summoned to such a high duty by the President of the United States every resident of Clearfield ought to be found on November 30 in the house of God voicing his deepest appreciation and vowing his sincerest service. Special music, instrumental and vocal, with addresses by clergyman and layman will make this gathering heartening and appealing.

In the evening, 7.30 o'clock, the East End folks will hold a union service, continuing the spirit of the morning meeting, in Eleventh Street Methodist church.

The offerings the people of Clearfield, all residents and visitors, are urged to make, should be generous. Every householder will receive the envelopes, which can be returned as directed, for the gifts of the people.

WORN OUT AFTER SHE COOKED A MEAL

Took Lydia E. Pinkham's Vegetable Compound—Read the Result

Cincinnati, Ohio.—"I suffered for a year with nervous troubles and irregularities before I took Lydia E. Pinkham's Vegetable Compound. My back pained all the time and I was unfit for housework. I was worn out if I cooked a meal, and was unable to do my washing. My girl friends and my sister told me if I would take your Vegetable Compound and Liver Pills I would be relieved. After taking the first bottle I felt better, and neglected it awhile, but found I could not do my work until I was stronger. So I took the Vegetable Compound again and now I am the mother of a 19 months old boy. He is fat and healthy and I am sure I could never have carried him if it had not been for your Vegetable Compound. I recommend your medicine to all women although I am young to be advising some one older."—Mrs. CHRIST. PETROFF, 218 W. Liberty St., Cincinnati, Ohio.

Lydia E. Pinkham's Vegetable Compound contains no harmful drugs and can be taken in safety by any woman.

LEGAL

In the Court of Common Pleas Clearfield County.

Mary Ethlyn Hayes vs. Clyde S. Hayes.

No. 155, September Term, 1921.

To Clyde S. Hayes, respondent.

You are hereby notified that the undersigned has been appointed by said Court Master in the above entitled case, for the purpose of taking testimony and reporting form of decree [illegible] and for the purposes of his appointment, the undersigned will sit at his office, Room 240 Deposit National Bank Building in the City of DuBois, Clearfield County, Pennsylvania, on **Saturday, December 16th, 1922, at 10:00 a. m.** o'clock at which time and place you may attend with your witnesses if any, and be fully heard.

JAMES A. GLEASON,
11|21|28 12|5|ch Commissioner.

Farmer's Week

(Continued From Page One.)

the Pennsylvania State College by the dairy breeders of the state, will be placed on exhibit and a formal presentation made. Between twenty and twenty-five gift cows and heifers will be on display. The dairy program, in addition to this ceremony, is one that not many dairymen will care to miss.

A corps of notable speakers have been scheduled to speak on the wide variety of subjects offered during the week. Members of the school faculty and of the agricultural extension service will be assisted by specialists from the State Department of Agriculture, and other who are nationally known in their special fields of work. The full program of demonstrations and meetings caters to every interest on the farm and in the home. In farm crops, livestock, dairying, fruit and vegetable growing, poultry or home economics, the selection is broad enough to suit the fancy of any and every member of the farm family.

A new section has been established for those who take an interest in subjects dealing with the conservation of Pennsylvania's wild life and its State timberlands. A strong list of speakers has been secured to lead the discussions on [illegible] Charles N. P. Fuller, State Commissioner of Fisheries; P. V. Shoop, State Commissioner of Forestry; Seth E. Gordon, Secretary of the State Game Commission and Dean R. [illegible] Watts, of the State College of Agriculture and President of the State Conservation Council.

Taken all in all, Farmers' Week offers the Clearfield Co. farmer and his family a very attractive educational and recreational two day vacation. To look over the many interesting features that have been prepared, is to draw closer to a decision to make the trip. The program indicates attendance at State College during the third week in December and no one will regret the time that is spent on such a trip. A supply of programs has been received at the office of Clearfield County Farm Bureau [illegible] to be distributed among the farmers in the County who are interested in the event.

SEALS HELP SECURE COUNTY HOSPITALS

Eleven counties in Pennsylvania now have voted to establish county tuberculosis hospitals.

In 1921 seven counties favored such a hospital in referendums, as follows: Delaware, Montgomery, Lackawanna, Luzerne, Berks, Cambria and Beaver.

This fall four counties, Dauphin, Erie, Schuylkill and Westmoreland, voted in favor of such a hospital. That the residents of these counties are heartily backing this program of providing sanatorium care for the tuberculous is shown by the strong favorable vote. The count in these counties was:

County.	Yes.	No.
Dauphin	16,916	4,756
Erie	14,011	3,811
Schuylkill	21,852	5,527
Westmoreland	15,471	2,??

Of the counties that voted for such hospitals in 1921, Berks and Lackawanna have taken over existing institutions, Luzerne, Cambria and Beaver have bought sites and are preparing to build, while Montgomery and Delaware are at work on the selection of sites.

The movement for county tuberculosis hospitals has been largely the result of a campaign carried on by the Pennsylvania Tuberculosis Society and its affiliated organizations in the counties mentioned. These citizen organizations are financed chiefly through Christmas Seals. To the Christmas Seal therefore can be given much of the credit for the providing of county tuberculosis hospitals.

Tom Sims SAYS---

One day Harding shook hands with 1450 people. This would pump 786 gallons of water or milk 94 cows.

Days are getting so short. Right after supper it is dark enough to wear a dirty collar to town.

Fashion note: Sleeves are full this winter and so are hip pockets.

Five of our most beautiful words are "Mama, the coal has come."

What is worse than learning you hunted all day with blank shells?

A Michigan man paid $25.000 for a cranberry plant. At that rate he will go into a strawberry jam.

A Seattle college girl demanding the right to wear running trunks has the right and left also.

Abbie Ades was robbed in Brooklyn. Taking them in alphebetical order.

What this country needs is shoelaces that last as long as shoes.

Radio messages traveled 5200 miles in four minutes and 18 seconds but Christmas comes faster than that.

There is a great shortage of teachers in France. Our great teacher shortage is in their pockets.

Short skirts give freedom of movement but it is much nicer to guess if they are bowlegged or knockkneed.

They are working on a heatless gas for lights and many furnace men are suspected of using it.

In an effort to get to the bottom of things a party has sailed to measure the deepest part of the ocean.

Some helps: A splendid way to make a husband stay at home a lights is to stay there with him.

Nice thing about wearing an old overcoat is you can eat in a cafe without watching the overcoat.

Reason so many are calling for beer and wines is prohibition makes it harder to get a drink.

ODDS AND ENDS AND THINGS

By J. D. C.

Up to noon on Monday County Treasurer Gertrude Rumberger had issued 11,811 hunter's licenses to Clearfield county hunters, which was one thousand more than the grand total for 1921. The last couple of days before December 1st, the opening of the deer season, always brings a rush of belated hunters for their licenses. Those who procrastinate by waiting until the last minute had better keep in mind that the last day of November is Thanksgiving and that being a legal holiday the County Treasurer's office will be closed. So get your license today or tomorrow if you would enjoy deer hunting on opening day.

* * *

There is always something new cobbing up to help the bibulous in their fight against prohibition. The latest "easy jag" comes from the far off Philippines. It is supplied by a little insect found on the island of Mindoro and called by the natives "a-nik." To those who are deprived of home brew and other beverages that ameliorate the burden of the Volstead brain child the bug will come as a gift from Allah.

The sting of the insect, scientists have just informed us, causes complete but temporary paralysis of the sensory nerves within thirty minutes. Motor nerves are not affected, and the alcoholic stagger is conspicuous by its absence even in extreme cases of inebriation. Nor is there any pronounced effect upon heart or lungs.

The anesthesia produced is quite complete in fact, so much so that it has been suggested that the insect might be used in connection with minor operations. But at the same time there is a marked mental exhilaration, comparable, it is stated, to the effect produced by certain drugs of the cocaine group.

Natives who have been stung by the insect claim that the experience is distinctly pleasurable as soon as the effects are apparent, and it may not be long until a society fad will develop tourist trade to the island in order to "have a bite."

A local organization is being formed by Haward Burns and Ray Bellas to import a herd of a-niks and stock in same will soon be on the market.

* * *

An untouched Eden in the mouth of a burned-out volcano in the heart of Africa, providing a refuge for thousands of animals, many of them believed to be extinct in every other part of the world, has been purchased outright by Sir Charles Ross, inventor of the Ross rifle, and is to be explored by scientists.

It is the giant crater of Ngoro Ngoro, the largest volcano that ever existed on this planet—ten miles across and a paradise for wild things.

Nobody knows what discoveries a thorough exploration of the crater may bring. Prehistoric animals, believed to have perished from the earth thousands of years ago, may inhabit its caves. Scientists hope to find alive strange creatures, of which only the skeletons have been found in other parts of the world.

Sir Charles Ross went to Tanganyika in January, 1921, on a shooting expedition, accompanied by the ex-[illegible] photographer, T. A. Barnes, and Mrs. Frederick Dalziel, of New York. They had good sport and they discovered the crater. Sir Charles stalked and shot five lions within the basin; and the wonders he saw there made him resolve that no more shooting parties should be allowed.

There will be no need for "No Shooting" signs. The crater is 100 miles from a railway, in the midst of wild country. Lions and tigers are the watchdogs of the country which surrounds it. The number of animals in the crater is estimated at 75,000. The crater is, in fact, a city of animals, who have lived there for centuries safe from attack. Its steep sides made it a citadel of the forest, other parts of the world the work of extermination [illegible], no hunter dared to pene- trate its fastness. Thus it is highly probable that animals which have perished elsewhere have survived at Ngoro Ngoro.

Entered in Post Office at Clearfield, Pa, as second class mail matter.

It is a diverting plan which Dr. Florence Brown Sherbon of the University of Kansas proposes in order to improve the physical stock of the human race. Many strange things have developed in Kansas since the days of Possawatomie John Brown. For years patent medicines had an unprecedented sale within that commonwealth, the prohibition law against liquor having been passed.

Kansas regulates the form in which tobacco is to be smoked, it tells employer and workingman how their relations must be conducted and it has at Lawrence a state university which takes a back seat for none. One of the chief graces of that university is Dr. Sherbon, who for a period of years has been notable for her advanced and progressive ideas.

Now Dr. Sherbon would hold a series of contests similar in every way to the cattle and horse stock contests which are familiar features of Kansas and other state fairs. The purpose is to apply "heridity and scientific care which have revolutionized agriculture and stock breeding," to the human family. Doubtless there is a germ of merit in the idea. But if the people of Kansas don't look out, they'll awake some morning to find that the air had been classified and metered out to consumers, and that in order to enjoy a certain number of respirations per minute, to undergo a rigid state examination.

JOHNSON—BIGLEMAN

E. C. Johnson of Grampian and Twila Bigleman of Mineral Spring, were married at St. Francis church at 7:15 this morning by Rev. Father M. A Ryan. Keenan Johnson, cousin of the groom, was best man and Miss Genevieve Myrter, of Grampian, was maid of honor Immediate families and relatives were present.

Mr Johnson has been an operator on the Pennsylvania for a number of years and is a veteran of the World war.

The happy couple embarked on the 8 20 Pennsylvania train for a honey moon tour of the eastern cities and on their return they will reside in Grampian

Both bride and groom are well and favorably known throughout this section and have the best wishes of a host of friends for a long, happy married life.

Roosevelt Policies Menaced Declare Conservation Leaders

Exemption of Muscle Shoals Violates Principles of Federal Act, and Threatens Grave Danger, They Say.

DECLARING that the Roosevelt policies embodied in the Federal Water Power Act are menaced by Henry Ford's proposa to take over the Muscle Shoals friends of Conservation have formed a special committee for the defense of the law.

The members of this committee include the leaders in the 15 years' struggle to secure the enactment of Federal statutes to protect the public's interest in water power development. Walter L. Fisher of Chicago, Secretary of the Interior during the Taft administration, is Chairman of the special committee Other members are Gifford Pinchot, Governor-elect of Pennsylvania; Henry L. Stimson of New York; Lindley M. Garrison of New York and Newton D Baker of Cleveland, former Secretaries of War; David F Houston of New York and Edwin T Meredith of Des Moines, former Secretaries of Agriculture; Governors Joseph M. Dixon of Montana and John M. Parker of Louisiana; Henry S. Graves, head of the Yale Forestry School, until recently Chief of the U. S Forest Service; Herbert Knox Smith of Connecticut, former Commissioner of Corporations, William Kent of California, former Congressman, and other prominent conservationists Philip P. Wells, formerly Chief Law Officer of the United States Forest Service, is the Secretary of the committee.

If the Ford proposal were to be accepted by Congress, says the Committee, every corporation which desires a water power privilege will demand a lease on the Ford terms The acceptance of those terms, the Committee adds, would be a death blow to the application of the principles of conservation to the use of water power. The Committee says:

"The Water Power Act of 1920 embodies well defined conservation principles and thereby protects the public interest in securing full development without having to pay monopoly profits. It does this by requiring:

1. That every water power lease shall be limited to a maximum of 50 years. (Ford asks for a 100 years' lease.)

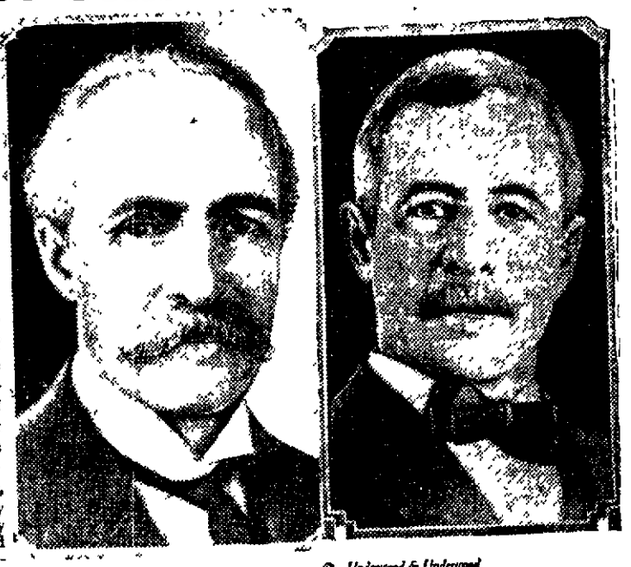
2. That the lessee shall pay the government a small rental for the power privilege when he builds his own dam and other works and a larger and fairer rental when he uses works constructed by the government. (The Ford offer contains no provision for rental fees, either large or small.)

3 That the lessee must submit to regulation by state authority, or if there is no state authority, by the Federal Power Commission, of the service he renders and the price he charges for light and power. (Under the Ford offer the lessee would be exempt from all regulation, state or national.)

4 That any excess profits over a fair liberal return on the actual investment shall be made over to the public in the form of a reduced price for the lessee's works at the end of his 50 year's term (The Ford offer places no restrictions on profits made from the sale of power development.)

"The acceptance of the Ford offer would be equivalent to a repudiation of the Federal Water Power Act. That Act is at once progressive and practical. It safeguards for all time public rights in the greatest of natural resources, but it is acceptable to investors in and to managers and promoters of water power enterprises today. It was framed with great care and embodies, perhaps beyond any other law on the statute books, the conclusions of experts in engineering, economics, legislative drafting and constitutional law.

"Theodore Roosevelt, under whose administration the fight for the law began, went to his grave before it was enacted, but he was for it heart and soul and it should stand as one of his best and most enduring monuments. The effort to get the law was continued under President Taft and achieved success under President Wilson High minded and practical men of all parties united to pass it. And it was passed in time. For once the public got in on the ground floor. "Only a small part of the enormous water power resources of the country has been developed Some eighty-five per cent of the undeveloped power is subject to control by the Federal Government. 'Shall the public stay on the ground floor or be thrown into the street?'"



© Underwood & Underwood
GIFFORD PINCHOT
Governor-Elect of Pennsylvania

© Underwood & Underwood
GOVERNOR JOHN M. PARKER
of Louisiana

TUE Ford offer, says Gifford Pinchot, is seven parts water power to one part fertilizer, even if the fertilizer part should work out. For the waterpower itself Mr. Ford would pay nothing, and he would be free from all taxes on the property. Other lessees of waterpower rights from the Government not only bear the total cost of building their own dams and powerhouses and pay taxes on them, but they also pay for the waterpower in addition. The Ford offer is like offering a man 4 per cent on the cost of his factory as rent, and then asking him to throw in a coal mine to supply fuel for the engines for nothing

UNMARRIED MOTHER AND SON ADMITTED

Kansas City, Nov. 28.—Miss Nancy Jordan, the pretty English girl mother who has been held at Ellis Island awaiting the arrival of Mrs. Mary Warren, never discussed marriage with Frank G Warren, stated Mr. Warren's attorney here today.

"I am sure that Nancy will find a welcome home with my former wife' said Warren in an interview.

WANTS PAY FOR THRESHING

George Kid— by his attorneys Miller & Hartswicke entered suit in Prothonotary Ralston's office today against Harbt Bloom, a Pike township farmer in an effort to recover $50, for one day and a half's threshing which Riddle alleges he did for Bloom, but which the latter disputes.

Salts Fine for Aching Kidneys

Eating too much meat may clog the Kidneys, then the Back hurts.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness, and all sorts of bladder disorders

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys will then act fine This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity It also helps neutralize the acids in the urine so it no longer irritates, thus helping to relieve bladder disorders

Jad Salts is harmless, inexpensive makes a delightful effervescent lithia water drink which everybody should take now and then to help keep their kidneys clean

A well known local druggist says he sells lots of Jad Salts to folks who believe in trying to correct kidney trouble while it is only trouble.

DRIGGS THEATRE
Wednesday and Thurs.

Seven Points of Supremacy

1. The sole leather used in "FOOT-FITTERS" is of the best quality obtainable. Even the insoles are cut from standard outsole leather.
2. "FOOT-FITTERS" are the only shoes in the world having full length vamps and sole leather box toes. This feature prevents ripping at the tip and makes a smooth outer and inner surface
3. The insoles are shoulder channelled so that they fit tightly against the outsole There is no need or room for a cork filler. A small piece of duck is used to prevent squeaking.
4. The Calfskin inside counter pocket is of great value, for it saves the wear on the socks There is no rough surface to rub against.
5. "FOOT-FITTER" heels are ¼-inch longer than generally used. They give additional support to the arch and increase the comfort and wear of the shoe.
6. The vamp is reenforced with 8-oz. duck This absorbs the moisture from the foot, this keeps the vamp from cracking and holds the shoe in shape.
7. Edmonds "FOOT-FITTER" shoes are called "FOOT-FITTERS" because they fit the foot snugly Built on combination lasts they support the foot like a doctor's bandage — "FOOT-FITTERS give Comfort, Service and Appearance. —

Thanksgiving Day To See Clash

(Continued From Page One)

"Bezdek" system of play installed in his fighting squad, and the results of close and careful tutoring are evident in the record below, which the up-river town has hung up against other high teams. Six wins and two defeats for Curwensville is an enviable showing.

Curwensville, 28; Tyrone, 0.
Curwensville, 0; Williamsport 38 at Williamsport.
Curwensville, 28; Hollidaysburg, 7.
Curwensville, 57; Reynoldsville, 0
Curwensville, 48; Cooper twp. 0.
Curwensville, 7; DuBois 14, at DuBois.
Curwensville, 25; Bellefonte, 0.
Curwensville, 28; Philipsburg, 0.
Total points, 219; Opp. 59.

GRID NOTES

The DuBois Courier today carries the following:

"It was reported in DuBois yesterday by a Curwensville rooter that if Curwensville defeated Clearfield on Turkey Day at Clearfield, they would challenge DuBois to a game to be played at Reynoldsville early in December.

However, even if Curwensville did defeat Clearfield next Thursday, it is not very likely that the Terrors would consider a game with the Curwensville eleven to be played at Reynoldsville, for the Jefferson county field is not as large as some of the others in this vicinity and thus a large crowd which would be certain to attend, could not be accommodated

"If and a few more ifs, Curwensville defeats Clearfield and then challenges DuBois why not play the game at Clearfield, where there is every accommodation to handle a capacity crowd, and where the field is never muddy.

"But" wait Curwensville, until you defeat Flegal and Reed's aggregation on Thursday.

"Hody" Johnson, who did not get in the DuBois game, will be in shape for Curwensville.

With "Swede" Johnson, "Hody" Johnson, Bill Brown, Ham Howe, all back field stars, ready to start Thursday, Curwensville forwards are in for a busy sixty minute session.

Altoona Hi. playing their best game of the season defeated the fast Johnstown H. S. team, 13 to 7, last Saturday. An 85 yd. run with a captured fumble spelled victory for the railroad City.

Football interest in Curwensville is at such a high pitch, that on every hand people are talking about the coming game with the Red and Black Old men, young sports, girls, women and children are backing their town's gridiron representatives to the limit.

This evening a great "Pep" meeting is scheduled to take place at the Curwensville High School building, to arrange all the details for the Blue and Golds invasion of the County seat.

Bands, colors and a regular caravan of cars will arrive in Clearfield early and parade around the town. If Curwensville does not win, it will not be caused by a lack of spirit, for their footballers will have the largest bunch of rooters on hand, of any squad that ever invaded the Old Town.

Mexico to Try Radio.

The installation of small radio outfits in 118 lighthouses of the department of communications, Mexico, is to be given a trial. Two sets are being supplied after which, if the results are satisfactory all lighthouses will be similarly equipped.

A Dainty Display Of CLEVERLY DRESSED DOLLS

For weeks past the Junior Women's Club has been busily engaged in dressing all sorts and kinds of dolls for Xmas selling.

These dolls will be on display at **KNEPP'S FURNITURE STORE** beginning Friday, December 1st, and where you may purchase any of them.

Junior Women's Club

OFFICER AND BANDIT DIE IN GUN BATTLE IN COLUMBUS, OHIO

Columbus, O., Nov. 28.—One policeman and an auto bandit were killed in a street battle between the officer and four bandits here last night. George Koehler, the policeman, was shot through the abdomen and died in a hospital several hours later. He thought he had disarmed four auto bandits whom he had caught stealing a car.

The slain bandit, thought to have been from Erie, Pa., was found in the car which had been run into a ditch near West Jefferson several miles from here.

Thought for the Day.

If we were as pleasant all the time as we are when we want to be, this would be a much happier world.

Ship Gave Name to River.

The Columbia river was named after the ship Columbia, whose crew discovered it.

UNCLE KILLS NEPHEW WHEN LATTER JUMPS IN FRONT OF HIS GUN

Clarion, Nov. 27.—Jumping in front of his uncle's gun as the latter fired at a rabbit, William Gray, eight years old, son of Mr. and Mrs. Ralph Gray, of Wilson, received the shot in his left side and died five minutes later near this place.

The fatal accident occurred near Clarion Junction on the Baltimore and Ohio Railroad when William and his uncle, Walter Gray, aged 14 years, and another youth were out in a field. William sighted a rabbit and shouted the news to his uncle who was a few rods away. The latter stopped and raised his gun to his shoulder, took aim, but the boy kept running. Just as the gun was fired William ran in front of the weapon.

A coroner's inquest was held this morning and jury absolved Mr. Gray from all blame.

The parents, one sister, and one brother, Thomas, survive.

LYTTON—HAGGERTY

Miss Beatrice Haggerty and Albert Lytton, well known local young people, were married at the Elect Street Methodist Episcopal church yesterday afternoon. The ceremony was performed by Rev. C. K. Gibson in the presence of a few close friends of the contracting parties. After a short honeymoon the couple will reside in Clearfield.

Classified.

"The nerve of that guy," complained Jimmy the office boy. "Wants me six dollars a week. What's he think I am—college graduate?"—N. Y. College Mercury.

Stray Bits of Wisdom.

Melodrama for the crowd; tragedy for women; comedy which depends for its effect on the flunkey.—Victor Hugo.

Quill Pens Long in Use.

It has been asserted that quills have been used for writing as early as the Fifth century.

PIMPLY? WELL—DON'T BE

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel—there's no sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Olive Tablets are a purely vegetable compound mixed with olive oil, you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look. 15c and 30c.

MUMS For Thanksgiving

We have them in pink, yellow and white.

Why not make it some of those wonderful Pom-Poms?

Let us book your order before 9 A. M. on Wednesday.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

Howard Stewart and ex-Mayor [illegible] M. Chase, of Clearfield, were Curwensville visitors on Saturday. Chase is an old upper Clearfield county boy and was raised in Happy Valley in the days when pine trees stood as thick in that section of the county as fleas on a dog in June. His memory is a storehouse of lumbering incidents that occurred during his youth, and are interesting records for the youth of today who never saw a raft afloat

David R Fleming left on Saturday for Pittsburgh where he will spend a few days and from there on his journey to the State of Alabama in which territory he is interested in some oil wells.

Mr. and Mrs. John P. Irvin are now located in Atlantic City and expect to remain at the ocean side for two or three weeks.

A very pleasant party was given Franklin Lewis at his home on upper Ridge avenue last Thursday evening when a number of young folks arrived to help celebrate his birthday anniversary. The evening was spent playing games and dancing and at near the midnight hour delicious refreshments were served, after which the guests departed for their respective homes wishing "Haney" many more happy returns of the day

Rev. S. Nathan, who hails from the town of Mesopotania addressed the Presbyterian congregation on Sabbath morning.

Archie Davidson, of Williamsport was in Curwensville yesterday. He was removing some household goods to his down river home that had been stored on second floor of the Bickford store building.

Mrs. James Sheridan has gone to Clearfield to spend several weeks with her parents.

Alex Whittaker, a resident of Clarksburg, W. Va., after several days of visiting with his mother Mrs. A. B. Whittaker, South Side departed for his home in the sunny South yesterday.

All business houses, barber shops, etc., in Curwensville will be closed all day Thursday. The delegation to Clearfield ball game will reach over the 500 notch.

The funeral of John Bennett, who died last Saturday night, was held from the home this afternoon. Deceased was born and reared in Pike township and was a son of William and Sarah (Gearhart) Bennett His exact age was 67 years and 7 days During the earlier epoch of his life he worked on the farm and in winter followed the life of a woodsman He was married three times, the lady of his last choice survives him, together with a number of children Mr Bennett was affiliated with the Loyal Order of Moose, a number of his brethren attending the last sad rites. Funeral Director Dovercpike conducting the funeral, he having the body in charge. Interment in Oak Hill cemetery. Mr. Bennett, although of a quiet demeanor, left many warm friends behind who deeply sympathize with the bereaved family

Harold Daugherty, who makes Little Rock, Ark. the city of adoption, is home and will spend Thanksgiving week with his parents, Mr and Mrs. George Dougherty, South Side. The young man is employed by the Luter Bridge Company, as general manager and estimator in their line of work His territory includes Arkansas and Texas. Thrown upon his own resources, at an early age, his stock in trade being brains and muscle he has more than made good, and is held in high esteem for his valuable worth by the big corporation which he represents. Curwensville is proud of him.

The snow fall of Sunday and yesterday gave the kids their first chance at a snow ball fight Going to and from school the little shavers surely took advantage of the time between bells to gratify desire for pelting one another.

If good luck prevails Edward Bros will have three large and brand new auto buses on the road between Curwensville and Clearfield by Thursday. Their representatives left for Cleveland O, yesterday to bring same in.

John Weisgarber, of near Grampian and one of the scientific agriculturists in Penn township, spent some time with his son, Harry Weisgarber yesterday He is serving as a juror this week but was relieved from duty for the day

The garage which was partially burned one day last week, is being reconstructed

Bricks are now down about half way up the stretch on Walnut street. By a little energy and pep the work might be completed before Thanksgiving

American Education Week will be observed by the Curwensville public schools from December 3d to the 9th inclusive. A program is now in course of construction which ought to prove of vast and everlasting interest to all parents having children attending the schools in any capacity Special subjects relative to patriotism true citizenship, school work, literacy and physical education will be some of the main features on the program As a rule parents of school pupils in this town do not visit the school rooms as often as they should and ascertain just what work is going on within the walls Pupils soon become discouraged in their school work when the parents shows lack of interest in their educational welfare On a rough estimate we should say that there has has not been more than two dozen parents visited the schools during the progress of the present term. It has not been because the invitation has not been extended to them time and again but just because they are dilatory and do not have any interest in the progress their offsprings are making toward securing a sufficient education to carry them through life when their school days are left behind and go out into the world to make a fight for wealth and prominence

For the past two years Curwensville has had a Community Christmas tree, and short exercises held on the campus at the High School building. This coming Christmas will be no exception to the rule, and already plans and arrangements for casting a bigger event than ever, Many poor children who are not remembered on this day as bountifully as they anticipated receive cheerful tokens and are therefore made happy, not so much from the amount of goodies and clothing, etc, that they receive but from the standpoint that they are brought into the holiday and gladness, to mingle in companionship with other children of the town who otherwise rarely acknowledge their presence because they are better clothed and fed In a sense Christmas is Christ's day, and we should try and exemplify his teachings by assisting others who have not been as fortunate in accumulating any great amount of this world's goods which really is not ours but His and of which we are but borrowers.

TRINITY CHURCH MEETING

Took a very interesting and enjoying turn last night. That company that came together had a soulful song period. The large chorus did finely and the selections of Prof Jones were exceptionally happy and strong in their great sentiment and thought, his own was delightful

From Acts 11:18 the preacher presented Repentance, which was analyzed, discussed and presented from various angles Then came the altar service which proved to be a lively part of the meeting. If this meeting is to be remembered for any one feature above the intense spiritual characteristics it will be the smiling service A happier crowd has not assembled in Trinity during the series of meetings

Tonight's subject is "The Kingdom of Heaven Suffereth Violence" The public is invited Come in time for the song service.

True to Type.

Six men, sole survivors of a wreck, were cast upon a desert isle, where they abode for some months till a man-of-war took them off In his log the captain of the warship noted the racial characteristics of the six thus: The two Irishmen had fought every day for the whole time of their sojourn The two Englishmen had not spoken to each other because they had not been properly introduced The two Scots had started a Caledonian society.

PEOPLE OVER FORTY

People aged forty or over are less able to resist the attacks of colds grippe, influenza or pneumonia than young people Their vital force lacks the powerful resistance of youth Constipated bowels, sour stomach indigestion, biliousness and weak kidneys all tend to lower the physical resistance Millions of people now use Bulgarian Blood Tea to keep the bowels open and improve the blood Bulgarian Herb Tea taken steaming hot will help break up a cold quickly Physicians and druggists everywhere recommend it

HAPPY CHRISTMAS FOR THOUSANDS

Christmas Seals Have Big Part in Preventing Many Deaths From Tuberculosis.

Harrisburg, Dec 1—Christmas Day 1922, will be a very happy one for thousands of Pennsylvanians who have been saved from death by tuberculosis Facts regarding this remarkable campaign against a great plague are set forth by John S Fisher Pennsylvania Chairman for the Christmas Seal sale, in the following:

"Approximately 6000 happy persons will sit down to Christmas dinners in Pennsylvania on December 25th next who would not be there if the tuberculosis death rate for this year were the same as it was in 1906

"On the same basis the lives of 27,500 Pennsylvanians have been saved in the intervening years and many thousands more have been prevented from contracting tuberculosis. This saving of human life has been the result of a constantly growing organized effort to combat and destroy the White Plague

"Those thousands of persons are living proof that tuberculosis can be cured and prevented.

"The citizen tuberculosis organizations which have had a part in this winning fight are financed mainly through the Christmas Seal. The Christmas Seal protects against tuberculosis It teaches those who have the disease how to take care of themselves and not to communicate the disease to others and it does well people how to keep well

"The 1922 Christmas Seal graphically expresses this thought of protection and love. It defines a mother with a child in her arms Beside them is the double barred cross the emblem of the citizen tuberculosis organizations

"A Christmas Seal costs only a penny but helps to save lives"

SEALS SAVE LIVES

The decreasing death rate from tuberculosis is proof that the organized campaign against tuberculosis is a winning fight An important factor in this fight is the Christmas Seal Statistics on Pennsylvania follow

	Deaths From Tuberculosis (All forms)	Rate Per 100,000
1906	10,780	150.9
1907	10,8[illegible]	14[illegible]

Huge Bombing Plane Constructed by U. S.

Monster of the Air Will Carry 10,000 Pounds of Explosives

By PAUL. R. MALLON
(United Press Staff Correspondent)

Washington, Nov. 28 (United Press).—A new Leviathan of the air—a huge bombing plane which can carry 10,000 pounds of aerial explosives—has been constructed by the Army Air Service.

The giant ship called the Barling bomber uses more than 180 gallons of gasoline an hour and is constructed to carry heavy loads for long distances. It is a triplane of 120 feet wing spread, an overall length of 65 feet and is 28 feet high.

The ship shows a great development over the largest type of bomber used in the world war. A total of 4,000 pounds of bombs may be carried for 12 hours. Two thousand gallons of fuel gasoline would be required for such a trip. The plane, however, can carry 10,000 pounds of bombs for seven hours.

To propel this giant ship six 400 horsepower Liberty motors have been installed. An intricate meter system has been installed to tell exactly how each of these motors are running.

A telephone has been fitted out to enable conversation between those in the front and rear of the cabin and a powerful radio apparatus has been installed to communicate with the ground.

When the parts of the ship were sent from the factory of the Witteman Aircraft Corporation at Hasbrouck Heights N. J. to Fairfield, Ohio special cars had to be provided by the railroad and the cars were routed to avoid certain tunnels through which the big parts could not have passed.

The plane soon will be tested out at Fairfield, Ohio.

MAYOR FINES PHILIPSBURG MAN

Felix Frelin, of Philipsburg, is not felixing as frelin as he did before he met Mayor Kittelberger last evening. The Philipsburg man was motoring over this way Sunday week about the time the fire alarm sounded and he disputed the right of way with one of the fire trucks. Capt. Bill Sutton of the Fire Police Patrol, got Frelin's numb. and so was summoned before Mayor Kittelberger last evening. The young man was quite "cocky" when he was put on the carpet but got his "comb cut" when the Mayor ended the argument by telling Frelin it would cost him $12.50. He settled too.

Thought for the Day.

A gentleman is not so much the man who forgets himself as the man who thinks of others.

—Try Our Business Printing Dep't.—

SPECIAL SERVICES ON THANKSGIVING DAY

The Christian and Missionary Alliance will hold two services on Thanksgiving day, corner of Filbert and George streets, Curwensville, Pa. There will be the old time Gospel preached, as well as singing. Evangelist Wm. Warren of Toccoa, Ga. Bible School assisted by the Alliance pastor. The purpose of these services is to Glorify God, Salvation of Sinner, Sanctification of believer Healing of the sick and to hasten the coming of our Lord and Savior, Jesus Christ for His church. Services at 2:30 and 7:30 p. m.

All are cordially invited.

HOW "HAP" GILLING VIEWED THAT GAME

Monday's DuBois Express continued the following story of Saturday's football game from the pen of "Hoppy" Gillang, the city and sporting editor of that paper:—

The bottom dropped out and the sides caved in on the DuBois High School football championship bubble when the big Black and White team battling a smaller but faster outfit Clearfield, was not only outplayed in every department, but was given a bad beating by the score of 33 to 0.

Out-gained, out-speeded, out-thought and even out-plunged, there was little glory in the game for the Black and White outfit and the team and followers are deeply disappointed by the turn of events. Despite the surprise of the victory for Clearfield and the disappointment felt here, there is no tendency among the DuBois fans to discredit Clearfield's team one bit. The home boys were alive and aware where DuBois seemed dead or asleep.

Making Breaks.

Digging deeply into the bag of excuses the only one brought forth is that the breaks were against DuBois. That is true, but it was a Clearfield day and, like a good winner, the Clearfield team made their own breaks. And making their breaks and taking advantage of them, just naturally developed that morale that is so infinitely a part of success in high school athletics. That's all there was to the game.

After a few downs at the very opening of the game, when the DuBois High cut it showed its heels, a break or two went against DuBois and those breaks seemed to burst the bubble entirely. After that the beef on the DuBois team proved to be nothing more than beef, while the absence of beef on the Clearfield team was made up in speed.

Crashing against the line or skirting the ends, or throwing passes Clearfield pierced the DuBois defense time and again. Everything Clearfield tried worked for a gain, large or small. Sometimes DuBois held, but most of the time the vaunted D. H. S. line was set back upon its haunches. And when DuBois did get the ball, there seemed to be a lack of confidence, a lack of power and drive, and a lack of decision and strategy that caught every member of the team in its meshes.

The breaks were against DuBois, we repeat. Pifer was hurt early in the game. Chuck Cline fumbled kicks at the most critical times, and the DuBois forward passes went into Clearfield hands. In fact, Bill Brown caught one on his ten-yard line and romped away for a 90-yard run and score. Brown was the brilliant star of the game, with "Swede" Johnson running him a strong second. Betts, Pearce and Ganoe also played finely. Not a DuBois player stood out any more prominent than to pick off a nice tackle or two.

TUBERCULOSIS DAYS DECEMBER 3 AND 9

Observance in Churches and Schools in Connection With 15th Christmas Seal Sale.

Harrisburg, Nov. 23.—Tuberculosis Day will be observed in the churches December 3 and in the schools December 8 as features of the Christmas Seal Sale. In connection therewith Fisher, Pennsylvania Chairman in the Christmas Seal sale, said:

"All church and educational workers are vitally interested in the physical as well as in the intellectual, moral and spiritual well being of our people. It is, therefore, appropriate that the church and school put forth their best efforts in conserving the health of our citizens. Inasmuch as the schools and Sunday schools deal with the youth of the young people, they furnish a inviting field in the war against tuberculosis.

"The Christmas Seal has become a vital factor in bringing better health and longer life to the people of Pennsylvania. It is the means of preventing tuberculosis and of restoring to health those who have fallen victims to its ravages.

"We confidently put the case before the pastors, Sunday school superintendents and workers and teachers in our public schools. We earnestly solicit your help and ask you to emphasize on the days above designated the dangers and treatment of tuberculosis to the end that health may be improved and life prolonged, and particularly the part which the Christmas Seal plays in this great effort."

WE'LL HELP YOU WITH YOUR THANKSGIVING DINNER MENU

It'll be a revelation for you to come here first with your ideas of what you are going to serve with your turkey on Thursday.

Of course you'll want at least two kinds of vegetables—and we'll have them. You'll want some kind of fruit—we'll have lots of that. And possibly you'll want to stuff that turkey with oysters—we'll have them aplenty.

We want to serve you and aid you in the preparation of your dinner and you'll find that we have some things that you won't find anywhere else.

THORN BROS.

Your Thanksgiving Candies

You will find that when you top off your Thanksgiving dinner with some of our home-made candies or, if you have them to eat during the afternoon, you will have something out of the ordinary.
